

Zucchetti Centro Sistemi

A 4.0 COMPANY: INNOVATIVE, FORWARD LOOKING,
SENSITIVE TO ITS ORIGINS AND THE LOCAL AREA,
WHICH CONTINUES TO GROW UNDER THE BANNER OF

About Us

Founded in 1985 in the heart of Tuscany as a Software House. The innovative spirit of its founder Fabrizio Bernini, now CEO, allowed the company to quickly establish itself in the international markets of robotics, automation and renewable energy.

In 2000 ZCS became part of Zucchetti SpA, an Italian and European leader in ICT.

Today the company stands out for its SMART & GREEN innovative solutions that integrate the most advanced technologies.

Vision & Mission

To improve the quality of life of people and support the development of companies with the intelligent use of eco-friendly technology. To combine creativity with technological innovation.

The idea is to diversify its business and create solutions and products that did not exist until now, but that can improve and simplify the everyday life of customers and support the digitalisation activities of companies while respecting the environment and business ethics. ZCS creates integrated hardware and software systems that learn and act in an “intelligent” manner.

INNOVATION EXPERTS

INNOVATION

Innovation as culture

The courage to design and create products that did not exist until now, but that could improve and simplify the everyday life of customers, as well as improve the efficiency of processes. Artificial intelligence, Cloud, Internet of Things, Big Data, Advanced Automation.

HUMAN CAPITAL

Human capital is the winning force of ZCS.

Driven by shared corporate values such as creativity, enthusiasm, passion, job responsibility, ethics and respect for people.

SUSTAINABILITY

Sensitive to environmental impact and social-financial sustainability

Technology and environment as a union to be explored and pursued with conviction. Economic, environmental and social sustainability.

ZCS: “Connected to the
Future”

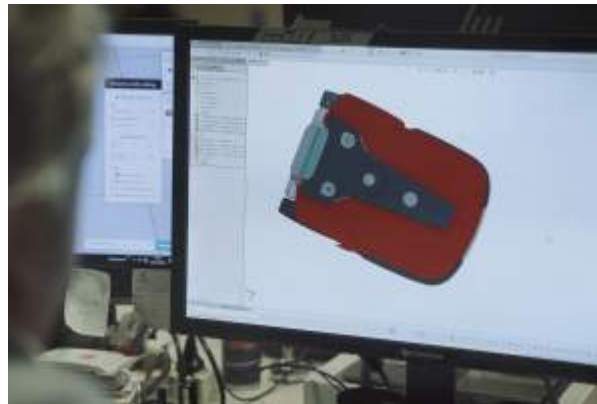

*Smart Solution, for a
Green Future*

Zucchetti Centro Sistemi | We Are From ZC

The Future according to ZCS

We must not tire of being VISIONARIES and of continuing to see something that does not (yet) exist in reality. The Next Generation, technology, sustainability and the circular economy are at the heart of tomorrow's business. "WE THINK THE UNTHINKABLE" in order to build a sustainable future!

Fabrizio Bernini - CEO of ZCS Spa

Awards & Recognitions

Award of Awards for INNOVATION - 2010-2014

ZCS has received numerous recognitions and awards in the field of innovation; one of the most prestigious is the Award of Awards for Innovation awarded by the President of the Italian Republic. ZCS was also named one of the best

innovators in 2010 for "product innovation", and in 2014 won an award for "the approach and commitment of Management to innovation and social responsibility."

Knighthood - June 2017

Fabrizio Bernini was awarded the title of Cavaliere del Lavoro (Knight of Labour) in June 2017 by the President of the Italian Republic, Sergio Mattarella, on the recommendation of the Minister of Economic Development, Carlo Calenda. Reason for the award: "He is CEO of Zucchetti Centro Sistemi Spa, which he founded in 1985 initially as a software house. The company is now an international leader in robotics and automation and also specialises in the fields of renewable energy and software development for companies, public institutions and hospitals."

Territory

ZCS is a key player in the transformation of Valdarno into a real "**Technological Valley.**" It interacts with the entire supply chain in its district, collaborating with hundreds of

suppliers, associations, organisations, the media and schools.

ZCS is also strongly committed to the **world of young people** who represent the future of the company, and to their education (by supporting the projects of technical schools in the area, such as the ISIS Valdarno) so that they can get the best training in order to face the job world with knowledge, competence and culture. In fact, ZCS has supported a digital restructuring project within the technical training centre for young people in the “Valdarno” State Institute of Higher Education and is a sponsor of the Aretino University, with the aim of cultivating young talent at home, to encourage the **growth of new professionals in the field of digital technology.**

A founding member of ITS Prodigy, a new post-diploma course of high-quality training in ICT and digital competences, **ZCS also supports traditional social and cultural events in neighbouring municipalities.** It collaborates with non-profit and ONLUS associations for charitable and social initiatives dedicated to local families.

Training

The “**ZCS Education**” project was created with the aim of spreading the culture of innovation in the company and also in the fields of digitalisation, business intelligence, robotics and renewable energy.

ZCS is EA37 certified as a Qualified Training Centre for Industry 4.0.
