The directors are satisfied that the company is entitled to exemption from the requirement to obtain an audit under section 477 of the Companies Act 2006.

The members have not required the company to obtain an audit in accordance with section 476 of the Act.

The directors acknowledge their responsibilities for complying with the requirements of the Companies Act 2006 with respect to accounting records and the preparation of accounts.

The accounts have been prepared and delivered in accordance with the special provisions applicable to companies subject to the small companies regime. The profit and loss account has not been delivered to the Registrar of Companies.

Mr. J B Schofield

Director

Approved by the board on 2 March 2022

Labstep Limited
Notes to the Accounts
for the year ended 31 December 2021

1 Accounting policies

Basis of preparation

These financial statements have been prepared in accordance with the provisions of Section 1A "Small Entities" of Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" and the Companies Act 2006. The financial statements have been prepared under the historical cost convention.

Turnover

Turnover represents the value, net of value added tax and discounts, of goods provided to customers and work carried out in respect of services provided to customers.

Tangible fixed assets

Tangible fixed assets are measured at cost less cumulative depreciation and any cumulative impairment losses. Depreciation is provided on all tangible fixed assets, other than freehold land, at rates calculated to write off the cost, less estimated residual value, of each asset evenly over its expected useful life, as follows:

Plant and machinery	33% reducing balance
---------------------	----------------------

Creditors

Short term creditors are measured at transaction price (which is usually the invoice price). Loans and other financial liabilities are initially recognised at transaction price net of any transaction costs and subsequently measured at amortised cost determined using the effective interest method.

Foreign currency translation

Transactions in foreign currencies are initially recognised at the rate of exchange ruling at the date of the transaction. At the end of each reporting period foreign currency monetary items are translated at the closing rate of exchange. Non-monetary items that are measured at historical cost are translated at the rate ruling at the date of the transaction. All differences are charged to profit or loss.

Pensions

Contributions to defined contribution plans are expensed in the period to which they relate.

Convertible debt

On the initial issue of convertible debt, the company allocates the proceeds between the liability component and the equity component. To make the allocation, the company first determines the amount of the liability component as fair value of a similar liability that does not have a conversion feature. The residual amount is allocated as the equity component. Any transactions costs are allocated between the debt component and the equity component on the basis of their relative fair values. The liability component of the instrument is subsequently measured on an amortised cost basis. Any initial allocations are not revised in subsequent periods.

Research and development

Expenditure on research and development is written off as incurred.

Going concern

The company has net liabilities and is therefore dependent upon the continuing support of its directors and creditors. On the basis that this support is expected to continue, the accounts

have been drawn up on the going concern basis.
