Attachment**General information on the annual financial statements****Information on the identification of the company according to the register court**

Company name according to the register court: AutomationsRobotic GmbH

Company headquarters according to the register court: Massing

Register entry: Commercial register

Register court: Landshut

Register no.: 8358

Information on accounting and valuation methods**Accounting and valuation principles**

Acquired intangible assets were stated at acquisition cost recognized and, insofar as they were subject to wear and tear, reduced by scheduled depreciation.

Property, plant and equipment were stated at acquisition or production cost and, where depreciable, reduced by scheduled depreciation.

Scheduled depreciation was carried out on a straight-line basis according to the expected useful life of the assets.

Financial assets were recognized and valued as follows:

- Investments at acquisition cost
- Shares in affiliated companies at acquisition cost

If necessary, the lower value available on the balance sheet date was used.

Inventories were recognized at acquisition or production cost. If the daily values on the balance sheet date were lower, they were used.

Receivables and securities were valued taking into account all identifiable risks.

The tax provisions contain the taxes relating to the financial year that have not yet been assessed.

The other provisions were formed for all other contingent liabilities. All recognizable risks were taken into account.

Liabilities were recognized at the settlement amount.

The annual financial statements contain items denominated in foreign currencies that have been converted into EUR.

Receivables and liabilities in foreign currencies are valued at the average spot exchange rate on the balance sheet date. If the exchange rate on the day of the transaction was lower for receivables or higher for liabilities, this is used.

Accounting and valuation methods that differ from the previous year

In the annual financial statements, the previously applied accounting and valuation methods were largely adopted.

There was no fundamental change in accounting and valuation methods compared to the previous year.
