Word Mark BABCOCKPOWER

Goods and Services IC 035. US 100 101 102. G & S: Temporary personnel services, namely, providing supplemental manpower to the nuclear and fossil generation, petrochemical and pulp and paper industry markets; Providing direct-hire construction personnel placement for new and existing plants. FIRST USE: 20110607. FIRST USE IN COMMERCE: 20110607

IC 037. US 100 103 106. G & S: Providing installation, maintenance and repair of flue gas desulfurization systems for power generation and industrial processes; Providing fully integrated environmental solutions, namely, installation and maintenance of environmental containment systems for utility power plants, waste-to-energy facilities and large industrial applications; Providing installation and maintenance of dual loop wet flue gas desulfurization systems; Mercury removal from coal-fired power plants; Mercury emissions control services, namely, installation of mercury emissions control plants; Providing multi-pollutant air quality control systems for power generation and industrial processes, namely, construction and installation of air quality control plants and providing technical advice concerning the repair and maintenance of air quality control plants; Providing regenerative selective catalytic reduction systems for industrial facilities and power plants, namely, installation of regenerative selective catalytic reduction systems for industrial facilities and power plants; Providing regenerative selective catalytic reduction systems for industrial facilities and power plants, namely, maintenance and field repair services; Providing fully integrated environmental solutions for utility power plants, waste-to-energy facilities and large industrial applications, namely, installation and maintenance of environmental containment systems; Providing installation services of single loop wet flue gas desulfurization systems; Providing waste removal in the nature of desulfurization reduction and removal of other acid gas emissions from power plants and industrial facilities utilizing either wet or dry technology; Providing dry scrubbing technology services to power plants and industrial facilities, namely, installation and maintenance of air scrubbers in power plants and industrial facilities; Installation of upgrades to existing emission removal systems in large industrial systems; Providing integrated and field services, namely, providing integrated maintenance and field repair of scrubbers for air pollution control for power generation and industrial processes; Providing selective catalytic reduction technology management and performance services, namely, maintenance and repair of catalytic reduction plants for utility and waste-to-energy systems; Providing technological services, namely, installation, maintenance and repair to upgrade and maintain steam generating plants; Providing on-site construction of structures, installation, repair, and alteration, namely, machinery conversion and retrofitting and maintenance of boilers and boiler-related equipment maintenance and repair services; Providing construction project management services in the field of replacement pressure parts for boilers; Providing field maintenance and repair and retrofitting services for heat recovery steam generators; Providing construction services, namely, construction of structures and installation of heat exchangers and condensers; Repair and maintenance of heat exchangers and condensers; Providing turnkey solutions, namely, installation with field maintenance and repair services and site installation of heat exchangers and condensers; Providing field machining namely, refurbishing of boilers, environmental control systems, tanks, turbines, pumps, interconnecting piping, valves, and fittings in power plants and industrial process facilities; construction services for new and existing plants using direct-hire personnel; Providing on-site installation,

machinery retrofit and conversion repair and maintenance of any OEM boilers and boiler related equipment; Providing construction project management services; Providing technical advisory and consulting services about the installation, repair and maintenance of regenerative selective reduction systems for industrial facilities and power plants. FIRST USE: 20110607. FIRST USE IN COMMERCE: 20110607

IC 040. US 100 103 106. G & S: Providing technological services, namely, custom fabrication to upgrade and maintain steam generating plants; Providing fabrication for others of boilers and boiler-related equipment; Providing manufacturing services for others in the field of replacement pressure parts for boilers; Resurfacing of vertical spindle mill pulverizer grinding roll and table services and other fuel processing and transport equipment; Providing manufacturing services for others of heat recovery steam generators and aftermarket related services, namely, manufacturing of replacement parts and components for heat recovery steam generators; Product manufacturing for others of combustion generated solids and gases, byproducts, and water effluents from steam generating facilities; Providing welding services; Field machining, namely, machining parts for others; Providing on-site alteration of any OEM boilers and boiler related equipment. FIRST USE: 20110607. FIRST USE IN COMMERCE: 20110607

IC 042. US 100 101. G & S: New product design, engineering, and research and development in the field of combustion generated solids and gases, byproducts, and water effluents from steam generating facilities; Providing regenerative selective catalytic reduction systems for industrial facilities and power plants, namely, design of regenerative selective catalytic reduction systems for industrial facilities and power plants; Providing selective catalytic reduction technology management and performance services, namely, design and emissions testing services for utility and industrial systems; Providing technological services, namely, design and engineering to upgrade and maintain steam generating plants; Providing engineering, quality control and design in the field of replacement pressure parts for boilers; Providing design services of heat recovery steam generators and aftermarket related services, namely, design services of replacement parts and components for heat recovery steam generators; New product design, engineering, and research and development; Providing turnkey solutions, namely, site inspections and evaluations of heat exchangers and condensers. FIRST USE: 20110607. FIRST USE IN COMMERCE: 20110607

Mark Drawing Code (3) DESIGN PLUS WORDS, LETTERS, AND/OR NUMBERS

Design Search Code 01.07.02 - Globes with meridians and parallels only
01.15.02 - Electricity ; Lightning ; Sparks (jagged lines)
26.01.21 - Circles that are totally or partially shaded.

Serial Number 86436749

Filing Date October 28, 2014

Current Basis 1A

Original Filing Basis 1A

Published for Opposition December 29, 2015

Registration Number 4916776

Registration Date March 15, 2016

Owner (REGISTRANT) **Babcock Power, Inc.** CORPORATION DELAWARE 222 Rosewood Drive, 3rd Floor **Danvers** MASSACHUSETTS 01923

Assignment Recorded ASSIGNMENT RECORDED

Attorney of Record H. Straat Tenney

Description of Mark The color(s) blue and white is/are claimed as a feature of the mark. The mark consists of a blue circle with a blue globe with white meridians and parallels and a white lightning bolt inside to the left of the words "BABCOCKPOWER" in blue letters.

Type of Mark SERVICE MARK

Register PRINCIPAL

Affidavit Text SECT 15. SECT 8 (6-YR).

Live/Dead Indicator **LIVE**
