## Convinced OMNITRACKER users

OMNITRACKER makes all processes clearer and more efficient.

   		
 <b>Artificial intelligence in risk management</b> Today, companies not only have to identify and mitigate increasingly diverse existing risks, but also anticipate potential future threats. This is where artificial intelligence (AI) comes into play, which has the potential to fundamentally change risk management. <a href="#">LEARN MORE &gt;</a>	 <b>OMNINET Austria successfully certified according to ISO 27001 and 9001</b> OMNINET Austria GmbH has now received certification for both the most important international ISMS standard ISO 27001 and the most widely used quality management standard ISO 9001. Through the simultaneous certification, the company can combine comprehensive information protection with the fulfillment of very high quality standards. <a href="#">LEARN MORE &gt;</a>	 <b>Hyperautomation: Why there is no way around this trend</b> More efficient, faster, more agile: Companies that want to get to the top or stay there must constantly evolve. One aspect of this is hyperautomation - a strategy concept that the US market research giant Gartner already ranked as one of the nine most important tech trends in 2021. <a href="#">LEARN MORE &gt;</a>
