

About Nexperia

Nexperia is the expert in high-volume production of discrete and MOSFET components and analog & logic ICs that meet the stringent standards set by the Automotive industry. With an absolute focus on efficiency, Nexperia consistently produces the essential semiconductors required by every electronic design in the world: more than 90 billion annually. Products that are benchmarks in efficiency - in process, size, power and performance - with industry-leading small packages that save valuable energy and space.

With decades of experience, supplying to the world's biggest companies, Nexperia has over 11,000 employees across Asia, Europe and the U.S., offering global support.

EFFICIENCY WINS.

“We are the only company that focuses 100% of its efforts on making and supplying world-class discrete and MOSFET components, analog and logic ICs”

Frans Scheper, CEO

The expert in discrete
and MOSFET components,
analog and logic ICs

EFFICIENCY WINS.

Our market segments

Virtually every electronic design in the world uses Nexperia parts

-  Automotive
-  Industrial & Power
-  Mobile & Wearables
-  Consumer
-  Computing

Key facts

Global leadership positions

- #1** in small-signal diodes and transistors
- #1** in ESD protection devices
- #2** in PowerMOS Automotive
- #2** in Logic devices
- #3** in small-signal MOSFETs

(Sources IHS 2018)

Portfolio

More than 10,000 active product types

Bipolar transistors

Diodes

ESD protection, TVS, signal conditioning

MOSFETs

GaN FETs

Analog & Logic ICs

Our sites

-  Headquarters: Nijmegen, The Netherlands
-  Two own waferfabs in Hamburg, Germany and Manchester, UK
-  Three own assembly centers in Guangdong, China; Seremban, Malaysia; and Cabuyao, Philippines
-  Research, development and sales activities in Asia, Europe and Americas in close proximity to customers
