Refine Search AN/"Saguna Networks Ltd"

	PAT. NO.	Title
1	10,348,573	Methods, circuits, devices, systems and associated computer executable code for facilitating local hosting and access of internet based information
2	10,341,288	Methods circuits devices systems and associated computer executable code for providing conditional domain name resolution
3	9,894,552	Regulating data communication between a mobile data client and a remote server
4	9,742,862	Methods circuits devices systems and associated machine executable code for efficient delivery of multi-unicast communication traffic
5	9,736,510	Methods circuits devices systems and associated computer executable code for transmitting a video stream to a mobile communication device
6	9,686,177	System and method for efficient delivery of multi-unicast communication traffic
7	9,642,169	Methods, circuits, devices, systems and associated computer executable code for facilitating access to a content source through a wireless mobile network
8	9,578,586	Methods circuits devices systems and associated computer executable code for providing data connectivity between a mobile communication device communicatively coupled to a mobile communication network and a third party data source
9	9,553,907	Methods circuits devices systems and associated computer executable code for conveying information between network elements over an open dataflow
10	9,430,441	Methods, circuits, devices, systems and associated computer executable code for distributed content caching and delivery
11	9,325,803	Methods, circuits, devices, systems and associated computer executable code for caching content
12	8,943,216	Methods, circuits, devices, systems and associated computer executable code for caching content
13	8,804,725	System and method for efficient delivery of multi-unicast communication traffic
14	8,369,328	System and method for efficient delivery of multi-unicast communication traffic
