Refine Search AN/"United Services Automobile Association"

	PAT. NO.	Title
1	11,044,695	Infrasonic alert and notification system
2	11,044,195	Preferential loading in data centers
3	11,042,941	Insurance claim processing via streaming video
4	11,042,940	Insurance claim processing via streaming video
5	11,042,864	Proactive bank transaction staging methods and systems
6	11,042,455	Systems and methods for online brand continuity
7	11,036,759	Selective DNS synchronization
8	11,036,221	Systems and methods for autonomous vehicle risk management
9	D921,658	Display panel portion with an animated graphical user interface
10	11,032,317	Phishing scheme detection and termination
11	11,032,286	Block chain authentication systems and methods
12	11,030,752	System, computing device, and method for document detection
13	11,025,663	Automated network policy management
14	11,023,980	Coverage at a glance
15	11,023,719	Digital camera processing system
16	11,023,604	Systems and methods to track, store, and manage events, rights and liabilities
17	11,019,211	Machine learning based call routing-system
18	11,019,090	Systems and methods for detecting fraudulent requests on client accounts
19	11,019,007	Systems and methods for providing electronic official documents
20	11,018,867	Asynchronous step-up authentication for client applications
21	11,017,775	Systems and methods to utilize text representations of conversations
22	11,017,487	Systems and methods for assessing property condition
23	11,017,477	Digital imagery, audio, and meta-data
24	11,017,475	Systems and methods for analyzing and visualizing traffic accident risk
25	11,017,474	Systems and methods for developing an automated life planner
26	11,017,397	Systems and methods for electronic presentation of financial instrument offers
27	11,015,952	Systems and methods for transportation management
28	11,012,836	System and method for mutually secured information exchange between possessors of automobiles
29	11,012,572	Multimedia network transposition
30	11,012,571	Call routing methods and systems

31 11,012,564 T System and method for providing an interactive voice response system with a secondary information channel
32 11,012,300 T Multi-device coordinated user experience
33 11,011,176 T Voice synthesis for virtual agents
34 11,010,922 T Systems and methods for calibrating distance estimation in image analysis
35 11,010,827 T Transaction pre-negotiation and optimization
36 11,010,808 T System and medium for providing financial products via augmented reality
37 11,010,763 T Biometric authentication on push notification
38 11,010,745 T Cash deposit at point of sale using deposit product inventory item systems and methods
39 11,005,862 T Systems and methods of detecting and mitigating malicious network activity
40 11,004,166 T Systems and methods for data storage and access in a legacy link
41 10,999,441 T Systems and methods for location based call routing
42 10,999,437 T Methods for simultaneous interaction on a web page by a customer and customer service representative
43 10,997,664 T Systems and methods for recommending action after assessing risk of property damage
44 10,997,216 T Systems and methods for centralized database cluster management
45 10,994,193 T System, method and apparatus for collecting and utilizing big data for online gameplay
46 10,992,692 T Systems and methods of detecting and mitigating malicious network activity
47 10,992,631 T Social quality review
48 10,992,513 T Systems and methods for reestablishing communication to resume a process based on inferred intent
49 10,991,172 T Generating motor vehicle components
50 10,991,049 T Systems and methods for acquiring insurance related informatics
