PAT. NO.	Title
1	11,126,177 Speed behavior planning for vehicles
2	11,112,793 Mixed-mode driving of a vehicle having autonomous driving capabilities
3	11,112,789 Intervention in operation of a vehicle having autonomous driving capabilities
4	11,099,264 Variable range and frame-rate radar operation for automated vehicle
5	11,097,690 Identifying and authenticating autonomous vehicles and passengers
6	11,092,963 Autonomous vehicle operation based on passenger-count
7	11,092,446 Route planning for an autonomous vehicle
8	11,087,626 Automated vehicle control strategy for pedestrian crowds
9	11,087,624 Safe-to-proceed system for an automated vehicle
10	11,067,984 Automated vehicle operating system with driving-rule modification based on observation of another vehicle
11	11,029,688 Rumble strip following for automated vehicle steering
12	11,022,450 Route planning for an autonomous vehicle
13	11,022,449 Route planning for an autonomous vehicle
14	11,014,606 Electric power steering torque compensation
15	11,008,000 Risk processing for vehicles having autonomous driving capabilities
16	10,991,212 Assigned seating system for an automated taxi
17	10,990,102 Adaptive dynamic model for automated vehicle
18	10,969,785 Automated vehicle operation to compensate for sensor field-of-view limitations
19	10,960,886 Traffic light estimation
20	10,909,851 Vehicle intent communication system
21	10,895,879 Scenario aware perception system for an automated vehicle
22	D907,560 Sensor housing for a side-view mirror of an automated vehicle
23	10,884,413 Hailing a vehicle
24	10,877,478 Motion-characteristic based object classification for automated vehicle
25	10,860,019 Planning autonomous motion
26	10,857,994 Identifying a stopping place for an autonomous vehicle
27	10,850,734 Processing a request signal regarding operation of an autonomous vehicle
28	10,850,722 Planning for unknown objects by an autonomous vehicle
