	PAT. NO.	Title
1	11,163,945	Systems and user interfaces for dynamic and interactive table generation and editing based on automatic traversal of complex data structures including time varying attributes
2	11,120,502	Transaction effects
3	11,055,478	Systems and user interfaces for dynamic and interactive report generation and editing based on automatic traversal of complex data structures
4	10,956,665	Systems and user interfaces for dynamic and interactive table generation and editing based on automatic traversal of complex data structures in a distributed system architecture
5	10,732,810	Systems and user interfaces for dynamic and interactive table generation and editing based on automatic traversal of complex data structures including summary data such as time series data
6	10,686,840	System and architecture for electronic permissions and security policies for resources in a data system
7	10,565,298	Systems and user interfaces for dynamic and interactive report generation and editing based on automatic traversal of complex data structures
8	10,430,498	Controlled creation of reports from table views
9	10,372,807	Systems and user interfaces for dynamic and interactive table generation and editing based on automatic traversal of complex data structures in a distributed system architecture
10	10,331,778	Systems and user interfaces for dynamic and interactive table generation and editing based on automatic traversal of complex data structures including time varying attributes
11	10,181,158	Methods and systems for depicting psychological analysis
12	10,013,717	Transaction effects
13	9,935,983	System and architecture for electronic permissions and security policies for resources in a data system
14	9,916,297	Systems and user interfaces for dynamic and interactive table generation and editing based on automatic traversal of complex data structures including time varying attributes
15	9,760,544	Controlled creation of reports from table views
16	9,485,259	System and architecture for electronic permissions and security policies for resources in a data system
17	9,424,333	Systems and user interfaces for dynamic and interactive report generation and editing based on automatic traversal of complex data structures
18	9,244,899	Systems and user interfaces for dynamic and interactive table generation and editing based on automatic traversal of complex data structures including time varying attributes

19 9,218,502 T System and architecture for electronic permissions and security policies for resources in a data system
20 9,105,064 T Transaction effects
21 9,105,062 T Transaction effects
22 9,087,361 T Graph traversal for generating table views
23 9,015,073 T Controlled creation of reports from table views
