CEO's Message

The Panasonic Energy Co., Ltd. is globally active in our dry battery business that supports everyday convenience and comfort, as well as our B2B business such as industrial batteries and automotive batteries that support social infrastructure across a broad area.

For over 100 years we have been focusing on building a better world through electricity, providing solutions with our energy business centered on batteries to the social challenges of lifestyles in each era. Earnestly seeking to come to grips with the environmental issues confronting the world now and in the future, our quest continues under our mission of achieving a sustainable society harmonizing enriched lifestyles with the environment.

With this aim in mind, we are expanding our business rapidly and flexibly to adapt to the increasing complexity and diversity of this age of change, based on our reservoir of technology development capabilities and high product quality. Buoyed by the powerful determination that we are doing what humankind requires to humanity to change the future, we are concentrating all our might to further evolve our technology, going beyond the standard concept of batteries to create a completely new type of value.

Our Mission

Achieving a society in which the pursuit of happiness and a sustainable environment are harmonized free of conflict.

Our Vision

Energy that changes the future.
