Introduction

Precision Machine & Auto Components (P) Ltd (PMAC) is a company, founded by Mr. K Balasubramanian in 1974 at a prime age of 25. This company was started with 5 employees and a capital of USD 1000. After four decades of growth, the company is now with total employee strength of 350 and an average sales revenue of USD 25 Million. The company caters to a wide range of OEM (Original Equipment Manufacturer) like Earth Moving, Tractor & Farm, Industrial Valves, Locomotives, Compressors, Plastic Molding Machine, and Wind Mill etc. With a stellar record of producing high quality products, PMAC is regarded as one of the most trusted and preferred companies in India and in the international markets by the above industries. Further, we have in-house tools for making the design of fixtures and a highly knowledgeable tooling department for the selection of the right tooling for machining of the components.

HISTORY From 1974

[Continue](#)

The company puts safety and customer's intellectual property protection as its top most priority. Some of the customers of PMAC have been with the company for more than 40 years. This proves the companies reliability as a trusted supplier.
