The company was entitled to exemption from audit for this reporting period under section 477 of the Companies Act 2006 relating to small companies.

The members have not required the company to obtain an audit in accordance with section 476 of the Companies Act 2006.

The directors acknowledge their responsibilities for complying with the requirements of the Act with respect to accounting records and the preparation of accounts.

These accounts have been prepared in accordance with the provisions applicable to companies subject to the small companies regime. The directors have chosen to not file a copy of the company's profit and loss account.

The financial statements were approved and authorised for issue by the Board of Directors on 5 November 2021, and are signed on its behalf by:

W J Stewart

## Notes to the Financial Statements for the year ended 30 April 2021

### **1. STATUTORY INFORMATION**

The company is a private company limited by shares and registered in England and Wales. The company's registered number and registered office address can be found on the Company Information page.

The presentation currency of the financial statements is the Pound Sterling (£).

### **2. COMPLIANCE WITH APPLICABLE REPORTING FRAMEWORK**

These financial statements have been prepared in accordance with Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" including the provisions of Section 1A "Small Entities" and the Companies Act 2006.

### **3. PRINCIPAL ACTIVITIES**

The principal activity of the company in the period under review was that of the development and testing of a software hosting platform.

### **4. BASIS OF MEASUREMENT USED IN FINANCIAL STATEMENTS**

The financial statements have been prepared under the historical cost convention.

### **5. ACCOUNTING POLICIES**

#### **Turnover policy**

Turnover is measured at the fair value of the consideration received or receivable, excluding discounts, rebates, value added tax and other sales taxes.

## **Property, plant and equipment policy**

Tangible assets are stated at cost (or deemed cost), less accumulated depreciation and accumulated impairment losses. Cost includes the original purchase price, costs directly attributable to bringing the asset to its working condition for its intended use, dismantling and restoration costs.

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

	<b>Straight line (years)</b>
Office Equipment	3

## **Intangible assets policy**

Intangible assets are initially measured at cost. After initial recognition, intangible assets are measured at cost less any accumulated amortisation and any accumulated impairment losses.

Intangible assets are being amortised evenly over their estimated useful life of five years.

## **Revenue recognition policy**

Turnover from the sale of goods is recognised when the significant risks and rewards of ownership of the goods have transferred to the buyer. Turnover from the rendering of services is recognised by reference to the stage of completion of the contract. The stage of completion of a contract is measured by comparing the costs incurred for work performed to date to the total estimated contract costs.

## **Research and development policy**

Revenue expenditure on research and development is written off in the year in which it is incurred.

## **Foreign currency translation and operations policy**

Foreign currency transactions are translated into the functional currency using the spot exchange rates at the dates of the transactions.

At each reporting period end foreign currency monetary items are translated using the closing rate. Non-monetary items measured at historical cost are translated using the exchange rate at the date of the transaction and non-monetary items measured at fair value are measured using the exchange rate when fair value was determined.

Foreign exchange gains and losses resulting from the settlement of transactions and from the translation at the period-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the Income Statement.

## **Employee benefits policy**

Contributions to defined contribution plans are expensed in the period to which they relate.

### **Share Based Payments**

The company operates an equity-settled compensation plan. The fair value of the services received in exchange for the grant of the options is recognised as an expense in the income statement. The total amount to be expensed over the vesting period is determined by reference to the fair value of the options granted, excluding the impact of any non-market vesting conditions (for example, profitability and sales growth targets). Non-market vesting conditions are included in assumptions about the number of options that are expected to vest. At each statement of position date, the entity revises its estimates of the number of options that are expected to vest. It recognises the impact of the revision to original estimates, if any, in the income statement. The credit entry is taken to reserves because the share options are equity-settled.

## **Valuation of financial instruments policy**

The Company has chosen to adopt Sections 11 and 12 of FRS 102 in respect of financial instruments.

The Company only enters into basic financial instruments transactions that result in the recognition of financial assets and liabilities like trade and other debtors and creditors, loans from banks and other third parties, loans to related parties and investments in non puttable ordinary shares.

Debt instruments (other than those wholly repayable or receivable within one year), including loans and other accounts receivable and payable, are initially measured at present value of the future cash flows and subsequently at amortised cost using the effective interest method. Debt instruments that are payable or receivable within one year, typically trade debtors and creditors, are measured, initially and subsequently, at the undiscounted amount of the cash or other consideration expected to be paid or received. However, if the arrangements of a short term instrument constitute a financing transaction, like the payment of a trade debt deferred beyond normal business terms or financed at a rate of interest that is not a market rate or in case of an out right short term loan not at market rate, the financial asset or liability is measured, initially, at the present value of the future cash flow discounted at a market rate of interest for a similar debt instrument and subsequently at amortised cost.

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position when there is an enforceable right to set off the recognised amounts and there is an intention to settle on a net basis or to realise the asset and settle the liability simultaneously.

### **Cash and cash equivalents**

Cash and cash equivalents comprise cash on hand and demand deposits and other short-term highly liquid investments that are readily convertible to a known amount of cash and are subject to an insignificant risk to changes in value.

## **Going concern**

The financial statements have been prepared on the going concern basis. The company has incurred losses during the year, however the directors believe that the company has sufficient resources available to meet its future obligations, if and when they fall due. The directors have considered the impact of the COVID 19 pandemic on the activities of the business and do not consider that this will materially impact the ability of the company to trade profitably in future. On this basis, the directors are therefore of the opinion that they should continue to adopt the going concern basis in preparing the annual financial statements.

## 6. CRITICAL ESTIMATES AND JUDGEMENTS

Share based payments, as set out in note to the accounts, have been made to employees of the company. As disclosed in the Share Based Payments accounting policy note, the fair value of any vested share options is recognised in the income statement and for the accounting period ending 30 April 2021 the fair value has been estimated as £0.10 per share. This is based on the value of ordinary shares issued.

There have been no other significant judgements or estimates applied to the numbers contained within these financial statements.

## 7. EMPLOYEE INFORMATION

### Share Options

The company operates an EMI share option scheme, and as at the year end, the company had granted 1,530 EMI qualifying share options to 2 employees of the company at exercise price £0.01 per share. During the year 444 share options vested, no share options lapsed or had been exercised. The share options vest over varying periods of up to 4 years from the date of grant with a cliff ranging up to 12 months.

The company also operates an unapproved share option scheme. As at the date of the Statement of Financial Position, the company had granted 3,825 unapproved options with an exercise price of £0.01 per share. At the year end 811 share options had vested, 431 had lapsed and no had been exercised.

	2021	2020
