Total	1312.75	1312.75	

*Issuer did not cooperate; based on best available information

[^]Instrument details are provided in Annexure-I

Rationale

ICRA has kept the Long-Term and Short-Term ratings for the Bank Facility of Energo Engineering Projects Limited in the 'Issuer Not Cooperating' category. The ratings are denoted as "[ICRA]D;ISSUER NOT COOPERATING/[ICRA]D;ISSUER NOT COOPERATING".

As part of its process and in accordance with its rating agreement with Energo Engineering Projects Limited, ICRA has been trying to seek information from the entity so as to monitor its performance. Further, ICRA has been sending repeated reminders to the entity for payment of surveillance fee that became due. Despite multiple requests by ICRA, the entity's management has remained non-cooperative. In the absence of requisite information and in line with the aforesaid policy of ICRA, the rating has been continued to the "Issuer Not Cooperating" category. The rating is based on the best available information.

Please refer to the following link for the previous detailed rationale that captures Key rating drivers and their description, Liquidity position, Rating sensitivities : [Click here](#) ICRA is unable to provide the latest information because of non-cooperation by the entity.

Analytical approach

Analytical Approach	Comments
Applicable Rating Methodologies	Policy in respect of non-cooperation by the rated entity Policy on default recognition Corporate Credit Rating Methodology

Complexity level of the rated instrument

Instrument	Complexity Indicator
Fund Based-Cash Credit	Simple
Fund Based-Term Loan	Simple
Non-Fund Based-Others	Very Simple

The Complexity Indicator refers to the ease with which the returns associated with the rated instrument could be estimated. It does not indicate the risk related to the timely payments on the instrument, which is rather indicated by the instrument's credit rating. It also does not indicate the complexity associated with analysing an entity's financial, business, industry risks or complexity related to the structural, transactional, or legal aspects. Details on the complexity levels of the instruments, is available on ICRA's website: [Click Here](#)
