THE POWER BEHIND POWER.

Impulses for the future of energy

Digitalization and the resilience of critical grid infrastructure

Components and solutions for **transformer manufacturers**

Stable and cost-effective **power supply in industry**

Optimizing the service life of equipment

Affordable **energy transition** and CO₂ reduction

Customer variance and **globalization** in transformer production

Standard-compliant grid integration of **wind and solar power**

At a glance

Family business since

1868

in the sixth generation
family owned

Economically healthy

1.225 billion

euros revenue in 2024
Highest rating (AAA)

Employees

4,900

83 nationalities
at 60 locations

World market leader 

50%

of the world's electricity
flows through our products

Reliability

50+ years

of OLTC lifetime proves the
unmatched MR product quality

Present all over the world

8,000

customers
in 185 countries

 Factory  Office  Subsidiaries/Locations

35 subsidiaries and 8 Joint Ventures worldwide

Solutions for load flow and power quality

Where Power meets Passion

- + 300 service heroes keep the global energy supply stable
- + Our software team drives the digitization of the products
- + In an international sales network we inspire our customers worldwide
- + 520 engineers working to shape a sustainable future

Recognized and awarded

Sustainability & Corporate Citizenship

We are aware of our special responsibility towards the environment, customers, employees and society and support the Sustainable Development Goals of the United Nations.
