INTERMODAL CONTAINER TRANSPORT IN EUROPE

WE CONNECT RAIL, WATER & ROAD

Optimodal Nederland B.V. offers you comprehensive trimodal transport solutions for container transport across Europe. By using three modes of transport – rail, water, and road – we ensure maximum flexibility and efficiency.

Our trimodal services are ideal for optimizing costs, bypassing traffic congestion, and protecting the environment at the same time.

Tell us about your transport needs, and we will create a customized solution for you.

NETWORK

Benefit from the strong connections of our network in Europe:

The locations in Rotterdam, Neuss, and Hamburg offer flexible and environmentally friendly solutions for sustainable container transport, reliably covering all major routes within Europe.

Through close collaboration with our trusted partners, we are able to efficiently and on time handle complex logistical challenges. Our network allows us to always provide the best possible solution for your transport needs – precisely tailored to your individual requirements.

Team in Hamburg

Europe-Wide Routes

With our Europe-wide network, your container transports are always in good hands. We offer flexible and reliable solutions that adapt to your schedule and requirements. Rely on punctual deliveries and maximum flexibility for your entire logistics chain in Europe.

CONTACT US IN HAMBURG

TRIMODAL LOGISTICS

Trimodality in perfection

As a neutral logistics service provider, we focus on hinterland container transport and also act as a reliable agent for rail operators. Thanks to our synchromodal approach, which flexibly utilizes rail, inland waterways, and trucks, we ensure a smooth and well-

coordinated handling across all transport modes – optimally tailored to our customers' requirements.
