**Report on Internal Control Over Financial Reporting  
and on Compliance and Other Matters Based on an Audit of Financial Statements  
Performed in Accordance with *Government Auditing Standards***

**Independent Auditor's Report**

Board of Trustees  
The RAND Corporation

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (*Government Auditing Standards*), the consolidated financial statements of The RAND Corporation and its subsidiaries (RAND), which comprise the consolidated statement of financial position as of September 30, 2025, and the related consolidated statements of activities and of cash flows for the year then ended, and the related notes (collectively the consolidated financial statements), and have issued our report thereon dated April 10, 2026.

**Report on Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered RAND's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of RAND's internal control. Accordingly, we do not express an opinion on the effectiveness of RAND's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We identified a certain deficiency in internal control, described in the accompanying schedule of findings and questioned costs as item 2025-001 that we consider to be a material weakness.

**Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether RAND's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

**RAND's Response to Findings**

*Government Auditing Standards* requires the auditor to perform limited procedures on RAND's response to the findings identified in our audit and described in the accompanying schedule of findings and questioned costs. The Organization's response was not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

**Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of RAND's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering RAND's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**Report on Compliance for Each Major Program; Report on  
Internal Control Over Compliance; and Report on  
Schedule of Expenditures of Federal Awards Required by the Uniform Guidance**

**Independent Auditor's Report**

Board of Trustees  
The RAND Corporation

**Report on Compliance for Each Major Federal Program**

***Opinion on Each Major Federal Program***

We have audited The RAND Corporation and its subsidiaries' (RAND) compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of RAND's major federal programs for the year ended September 30, 2025. RAND's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, RAND complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended September 30, 2025.

***Basis for Opinion on Each Major Federal Program***

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditors' Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of RAND and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of RAND's compliance with the compliance requirements referred to above.

***Responsibilities of Management for Compliance***

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to RAND's federal programs.

### ***Auditors' Responsibilities for the Audit of Compliance***

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on RAND's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about RAND's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding RAND's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of RAND's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of RAND's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

### ***Report on Internal Control Over Compliance***

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditors' Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

**Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance**

We have audited the financial statements of RAND as of and for the year ended September 30, 2025, and have issued our report thereon dated April 10, 2026, which contained an unmodified opinion on those financial statements. Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the financial statements as a whole.

## The RAND Corporation

### Notes to Schedule of Expenditures of Federal Awards

---

#### **Note 1. Summary of Significant Accounting Policies and Basis of Presentation**

The accompanying Schedule of Expenditures of Federal Awards (the "Schedule") includes the federal grants and cost reimbursement contracts transactions of The RAND Corporation and its subsidiaries (RAND) recorded on the cash basis of accounting and in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (the Uniform Guidance). The Schedule summarizes the expenditures of RAND under programs of the federal government for the year ended September 30, 2025. Because the Schedule presents only a selected portion of the operations of RAND, it is not intended to and does not present the financial position, changes in net assets or cash flows of RAND in accordance with accounting principles generally accepted in the United States of America. The grants and contracts listed relate predominately to Research and Development Programs. Assistance Listing Numbers and pass through entity numbers or other identifiers are provided when available.

Expenditures for direct costs are recognized on a cash basis of accounting following the cost accounting principles contained in Title 48 U.S. Code of Federal Regulations Federal Acquisition Regulations System and the Uniform Guidance, as applicable. Under those cost principles, certain types of expenditures are not allowable or are limited as reimbursements. Moreover, expenditures include a portion of costs associated with general company activities which are allocated to awards under negotiated formulas commonly referred to as indirect cost rates. Negative amounts represent adjustments to amounts reported in the prior year, in the normal course of business.

#### **Note 2. Indirect Cost Rate**

RAND has elected not to use the 10% *de minimis* cost rate allowed under the Uniform Guidance for awards issued prior to October 1, 2024 or the 15% *de minimis* cost rate allowed under the Uniform Guidance for awards issued on or after October 1, 2024.

RAND used preliminary indirect rates for reimbursement of indirect costs, negotiated with the Defense Contract Management Agency (DCMA). DCMA engages the Defense Contract Audit Agency (DCAA) to audit RAND's indirect rates. As of the date of the issuance of this report, the final indirect cost rates for the year ended September 30, 2025 have been submitted to the DCMA. As of the date of the issuance of this report, the audit for September 30, 2025 has not been performed by the DCAA. In the opinion of management, the results of the audit will not have a material impact on the Schedule.

**Section I—Summary of Independent Auditor's Results**

***Financial Statements***

Type of report the auditor issued whether the financial statements audited were prepared in accordance with U.S. GAAP:

Unmodified

Internal control over financial reporting:

Material weakness(es) identified?

  X   Yes

       No

Significant deficiency(ies) identified?

       Yes

  X   None Reported

Noncompliance material to financial statements noted?

       Yes

  X   No

***Federal Awards***

Internal control over major federal programs:

Material weakness(es) identified?

       Yes

  X   No

Significant deficiency(ies) identified that are not material weakness(es)?

       Yes

  X   None Reported

Type of auditor's report issued on compliance for major federal programs:

Unmodified

Any audit findings disclosed that are required to be reported in accordance with Section 200.516(a)?

       Yes

  X   No

Identification of major federal programs:

Program Name

Assistance Listing Number

Research and Development Cluster

Various

Dollar threshold used to distinguish between Type A and Type B programs:

\$ 3,000,000

Auditee qualified as low-risk auditee?

  X   Yes

       No

---

#### Section II—Financial Statement Findings

##### Finding No. 2025-001: Reclassification of Net Assets

###### Material Weakness

**Criteria:** Under ASC 958-205, not-for-profit entities are required to classify net assets based on the existence or absence of donor-imposed restrictions and under ASC 958-605, conditional revenue should be recognized when conditions are met.

**Condition:** During the audit, management informed us that amounts totaling \$9.4 million that were released from restriction in the year ended September 30, 2024, due to time, were not properly reported as releases from restrictions in the audited financial statements. In addition, the total beginning net assets and beginning receivables for the year ended September 2024, were restated to properly recognize revenue and the related receivable earned in years ended September 30, 2020, 2021, 2022 and 2023 and to recognize release from restrictions from those years that were not properly reported.

**Cause:** The cause is a result of the manual process in place for releasing net assets with donor restrictions to net assets without donor restrictions during the year the restrictions were met. In addition, management did not adequately evaluate donor agreements and grant documentation to identify any conditions or whether the agreements allowed management to have full discretion on how the funds can be spent.

**Effect:** The presentation of net assets by classification was materially misstated requiring the financial statements to be restated. As a result of the restatement, there was a decrease in net assets with donor restrictions and an increase in net assets without donor restrictions of approximately \$9.3 million as of September 30, 2024 due to the restatement. In addition, the opening balances for net assets with donor restrictions net assets without donor restrictions and receivables, net of billed and unbilled costs, were restated by approximately \$6.0 million, \$2.6 million and \$3.4 million, respectively, as of October 1, 2023.

**Recommendation:** We recommend that management enhance its controls over the review of donor agreements and contribution revenue recognition to properly conclude on whether the contribution is conditional or unconditional and if unconditional to ensure that donor-imposed restrictions are appropriately identified and reflected in net asset classification. This should include formal documentation of the revenue conclusion and restriction assessment and supervisory review at the time contributions are recorded.

**Views of responsible officials:** Management agrees with the finding. See corrective action plan.

#### Section III—Federal Award Findings and Questioned Costs

No matters were reported.

## Summary Schedule of Prior Year Finding Year Ended September 30, 2025

---

### Finding No. 2024-001: Communication Between Departments

**Condition and context:** During our audit, we noted that the development department received new information regarding a significant promise to give. The new information included a reduction in the outstanding balance, and this was communicated to the accounting department as a current revenue adjustment rather than a write-off, which was not the appropriate accounting treatment since the promise to give was recorded in the prior fiscal year.

**Cause:** Misunderstanding of accounting terminology between Development and Accounting, along with its financial impact.

**Current year status:** The issue was rectified.

## Management's Views and Corrective Action Plan

### **Finding No. 2025-001: Reclassification of Net Assets**

Name of Responsible Official: Bradley W. Beverage, Director,  
Finance & Accounting

Anticipated Completion Date: September 30, 2025

### **Corrective Action Plan: Reclassification of Net Assets:**

To address the appropriate reclassification of the net assets, the Finance & Accounting department has put in place a checklist-based control to ensure we record the movement, once cash is received on pledge payments, from the net assets with restriction designation to the net assets without restrictions designation.

RAND Management concurs with this finding related to the fiscal year ended September 30, 2025. Management recognizes the need for the above-mentioned strengthening of controls surrounding the proper classification of net assets associated allow further enhancement of its internal controls surrounding pledge management. Bradley Beverage is responsible for this Corrective Action Plan. The corrective actions referenced above have been scheduled for FY26.

# **CONSOLIDATED FINANCIAL STATEMENTS**

Fiscal Years Ended September 30, 2025 and 2024

**Independent Auditor's Report**

Board of Trustees  
The RAND Corporation

**Report on the Audit of the Financial Statements*****Opinion***

We have audited the consolidated financial statements of The RAND Corporation and its subsidiaries (RAND), which comprise the consolidated statements of financial position as of September 30, 2025 and 2024, and the related consolidated statements of activities and of cash flows for the years then ended, and the related notes to the consolidated financial statements (collectively, the financial statements).

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of RAND as of September 30, 2025 and 2024, and the changes in their net assets and their cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

***Basis for Opinion***

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (*Government Auditing Standards*). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of RAND and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

***Emphasis of Matter***

As disclosed in Note 14 to the financial statements, RAND restated the September 30, 2024 financial statements to correct a prior period misstatement. Our opinion is not modified with respect to this matter.

***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about RAND's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

### ***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards*, will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of RAND's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about RAND's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### ***Other Reporting Required by Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated April 10, 2026, on our consideration of RAND's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering RAND's internal control over financial reporting and compliance.

The accompanying notes are an integral part of these consolidated financial statements.

## 1. Corporate Organization:

The RAND Corporation (RAND) is a nonprofit, tax-exempt corporation organized to conduct research and analysis to advance the public interest. RAND's activities are funded primarily by contracts, grants, and contributions. RAND also operates the Pardee RAND Graduate School of Public Policy, which offers master's degrees in national security policy and technology policy analysis, as well as Ph.D. and M.Phil. programs in policy analysis.

The accompanying consolidated financial statements include the accounts of RAND and its wholly owned or controlled subsidiaries:

- RAND Europe, a Community Interest Company registered in the United Kingdom and the controlling party of RAND Europe AISBL (an international nonprofit association registered in Belgium) and RAND Europe NL (a nonprofit foundation registered in the Netherlands);
- RAND Australia Pty Ltd, a Proprietary Company limited by shares, based in Australia; and
- Goshen Avenue Housing, LLC ("Goshen"), formed for the exclusive purpose of holding title to the Goshen Avenue Housing property, which was sold, and therefore the LLC was closed as of September 30, 2025.

All significant intercompany balances and transactions have been eliminated in consolidation.

## 2. Summary of Significant Accounting Policies:

**Fiscal Year.** RAND's fiscal year is from October 1<sup>st</sup> to September 30<sup>th</sup>.

**Basis of Presentation.** The accompanying consolidated financial statements have been prepared on the accrual basis of accounting in accordance with generally accepted accounting principles (GAAP) in the United States of America applicable to not-for-profit organizations.

**Net Assets.** Under GAAP applicable to not-for-profit organizations, net assets, revenues, expenses, gains and losses are classified based on the existence or absence of donor-imposed restrictions. Accordingly, net assets of RAND and changes therein have been classified and are reported as follows:

- Net Assets without donor restrictions – Net Assets without donor restrictions are defined as those assets not subject to stipulations imposed by donors. This category also includes donor-restricted contributions for which the restrictions are fulfilled within the same reporting period in which the contribution is received, as well as net assets designated by the Board of Trustees (the Board) or management for specific purposes.
- Net Assets with donor restrictions
  - Net Assets with donor restrictions for time or purpose – Net Assets with donor restrictions for Time or Purpose are those assets subject to donor-imposed stipulations that will be fulfilled either through actions undertaken by RAND in accordance with those stipulations and/or through the passage of time.
  - Net Assets with donor restrictions in perpetuity – Net Assets with donor restrictions in perpetuity are those assets subject to donor-imposed stipulations that require RAND to maintain them indefinitely. Generally, the donors of these assets allow RAND to utilize all or part of the income generated from the related investments for general or specific purposes.

**Use of Estimates.** The preparation of consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and

disclosures of contingent assets and liabilities as of the date of the Consolidated Statements of Financial Position. Estimates also affect the reported amount of revenues, expenses, or other changes in net assets during the reporting period. Actual results could differ from these estimates.

**Concentrations of Risk.** Cash and cash equivalents are maintained with several financial institutions. Deposits held with banks may exceed the amount of FDIC insurance provided on such deposits. Generally, these deposits may be redeemed upon demand and are maintained with financial institutions of reputable credit and therefore bear minimal credit risk.

RAND derived 92% and 89% of its United States Contracts and grants revenues in fiscal years 2025 and 2024, respectively, from agencies of the United States Federal Government.

**Cash and Cash Equivalents.** RAND considers all highly liquid financial instruments purchased with an original maturity of three months or less, and whose purpose is not restricted, to be cash equivalents. RAND classifies cash equivalents held as part of the investment portfolio as investments. Such investments are not included in the line item Cash, cash equivalents, and restricted cash in the Consolidated Statements of Cash Flows.

As of September 30, 2025, and 2024, \$100,869,000 and \$98,919,000 is included in the end of period Cash and cash equivalents, respectively. In addition, there is a restricted cash balance in Short-term investments as collateral for a line of credit related to RAND Europe in the amount of \$1,168,000 and \$1,118,000 as well as an unrestricted cash balance in Long-term investments in the amount of \$16,696,000 and \$9,062,000 for the fiscal years ending 2025 and 2024.

**Contributions Receivable.** Contributions receivable, including unconditional promises to give, are recognized as revenue in the period received and are reported as increases in net assets with donor restrictions for time or purpose or with donor restrictions in perpetuity based upon donor-imposed stipulations. The receivables are recorded net of the discount for future cash flows and allowance for bad debt using the credit-adjusted rate of return appropriate for the expected term of the promise to give determined at the time the unconditional promise to give is initially recognized. Receivables expected to be collected in one year or less are included in Other receivables, and receivables expected to be collected after one year are included in Other assets on the Consolidated Statements of Financial Position. Conditional promises to give are not recognized until they become unconditional, that is, when the conditions on which they depend are substantially met.

**Property and Equipment.** Property and equipment are stated at cost. Depreciation is computed by the straight-line method over the estimated useful lives of the assets ranging from 3 to 40 years. Leasehold improvements are amortized by the straight-line method over the shorter of the non-cancelable lease term or the unique useful life of the asset. Construction in progress will be amortized over the estimated useful lives of the respective assets when they are ready for their intended use and placed in service. Certain computer systems and software are internally developed. Costs associated with the application development stage are capitalized and depreciated over the useful life of the system or software. All other costs are expensed as incurred.

Purchases of equipment equal to or greater than \$5,000 with a useful life greater than 2 years are capitalized. Expenses to be capitalized include purchase price, freight and shipping, cost of installation, and any modifications or accessories necessary for usability. Impairment exists when the market value of an asset is less than the net book value. When an asset is deemed impaired, a write down is necessary to record the corrected net book value of the asset. Periodic reviews are performed to assess market value of the fixed assets to compare against the current net book value. As of September 30, 2025, and 2024, no impairment indicators were identified.

**Leases.** RAND determines if an arrangement is a lease or contains a lease at inception of a contract. A contract is determined to be or contain a lease if the contract conveys the right to control the use of identified property, plant, or equipment (an identified asset) in exchange for consideration. RAND determines these assets are leased because they have the right to obtain substantially all of the economic benefit from and the

right to direct the use of the identified asset. RAND determines lease classification as operating or finance at the lease commencement date. Operating leases as a lessee are included in Operating Lease – Right of Use and Short-term or Long-term lease liability on the Consolidated Statements of Financial Position. RAND does not have any finance leases as of the years ended September 30, 2025, or 2024, respectively. Right-of-use assets represent the right to use an underlying asset for the lease term, and lease liabilities represent the obligation to make lease payments arising from the lease, measured on a discounted basis. At lease inception, the lease liability is measured at the present value of the lease payments over the lease term. For operating leases, the right-of-use asset equals the lease liability adjusted for any initial direct costs, prepaid or deferred rent, and lease incentives. For the initial and subsequent measurement of all domestic lease liabilities, the discount rate is based on the US treasury par yield rate using a period comparable with the lease term. For the initial and subsequent measurement of international lease liabilities, the discount rate is based on the 10-year GILT rate for European leases and the 10-year Australian bond rate for the Australian lease. The lease term will include options to extend or to terminate the lease that RAND is reasonably certain to exercise. Operating lease expense is recognized on a straight-line basis over the lease term. Interest expense is recognized as a component of the lease payment for finance leases. RAND's lease agreements do not contain any material residual value guarantees or restrictive covenants. Rental income arising from operating sub-leases as a lessor are included as an offset to rent under Research expense in the Consolidated Statements of Activities.

**Investments.** Investments classified within the Long-Term Investment Fund include amounts held in net assets without donor restrictions, including board-designated funds, as well as certain endowed assets with donor-imposed restrictions related to time, purpose, or perpetuity. Income generated by the Long-Term Investment Fund is allocated to individual gift restrictions proportionally, based on the ending balance of the fund.

Board-designated funds distributed for use was approximately 5% in fiscal years 2025 and 2024 based on the average of the trailing 12-quarter market values of the funds. In April 2018, the Board approved a special distribution of up to 2% per year for a period of 5 years commencing with the first distribution.

The first 2% distribution under this authorization was made in fiscal year 2022, based on the average of the trailing 12-quarter market values of the funds, with subsequent distribution taken in fiscal year 2025.

The total net distributions from board-designated funds were \$10,692,000 and \$8,358,000 for fiscal years 2025 and 2024, respectively.

Gains and losses on investments and Investment income are reported as increases or decreases in net assets without donor restriction, unless otherwise stipulated by the donor.

Investments carry various risks, such as interest rate, market, sovereign, currency, liquidity and credit risk. RAND anticipates that the value of its investments may, from time to time, fluctuate as a result of these risks.

**Other Assets.** RAND adopted ASU 2018-15, *Customer's Accounting for Implementation Costs Incurred in a Cloud Computing Arrangement That is a Service Contract*, in fiscal year 2018 and capitalized costs totaling \$9,585,000 through October 1, 2019, when the asset was placed into service. Net book value and amortization expense for the years ended September 30, 2025, and 2024 are as follows (in thousands):

|                          | September 30, 2025 | September 30, 2024 |
|--------------------------|--------------------|--------------------|
| Net Book Value           | \$ 2,533           | \$ 3,708           |
| Accumulated Amortization | \$ 7,052           | \$ 5,877           |
| Amortization Expense     | \$ 1,175           | \$ 1,175           |

**Income Tax Status.** RAND is exempt from income tax under Section 501(c)(3) of the U.S. Internal Revenue Code and corresponding California provisions and has qualified for the 50% charitable contributions limitation. RAND has been classified as an organization that is not a private foundation under Section 509(a)(1) and has been designated a "publicly supported" organization under Section 170(b)(1)(A)(vi) of

the U.S. Internal Revenue Code. RAND is no longer subject to U.S. federal, state or local income tax examinations by tax authorities for three years from the filing date.

Management evaluated RAND's income tax positions and concluded that RAND had taken no uncertain income tax positions that require additional recognition or disclosure to the financial statements.

**Revenue and Expense Recognition** . RAND's revenue and expense recognition policies are as follows:

**Revenue.** Transfers of assets are analyzed to determine whether they represent a contribution or an exchange transaction. If a transfer is not considered a contribution, it is treated as an exchange transaction and evaluated using the five-step model under ASU No. 2014-09, *Revenue from Contracts with Customers (ASC 606)*, whereby revenue is recognized as performance obligations within the contract are satisfied.

Revenues from Contracts and grants:

- *Contracts received from governmental and non-governmental sources* - Generally are considered exchange transactions which are recognized over time using an input method as allowable expenditures under such agreements are incurred. For fixed price contracts and fee revenues associated with cost plus fixed fee contracts, revenue is recognized over time based on an input method that uses costs incurred relative to total estimated costs to satisfy the performance obligation. RAND has determined that the input methods used to recognize revenue provide a faithful depiction of the transfer of services to the customer and RAND's progress toward satisfaction of the performance obligation. RAND has determined that each research study specified in its contracts represents a performance obligation. This is supported by the fact that RAND's contracts explicitly state what work will be performed for the customer, the stages or timeline of work that will be performed by RAND, and a completion date of when the final report will be provided to the customer. Thus, RAND's contracts are defined as having a single performance obligation – the completed research study. RAND's significant payment terms generally consist of invoices due net 30 days. When it is probable that a contract will result in a loss and that loss can be reasonably estimated, the entirety of the loss is recognized in the Consolidated Statements of Activities. Substantially all United States government contracts awarded to RAND provide for the reimbursement of various indirect costs based on rates negotiated with the Defense Contract Management Agency (DCMA), RAND's federal cognizant agency for the negotiation and approval of indirect cost rates. While allowable expenditures under RAND's agreements are subject to audit by the DCMA through annual contract cost submissions, RAND has determined that no constraint on revenue is required as it is not probable that there will be a significant reversal of revenue due to cost disallowances once the audits are completed. \$7,467,000 and \$5,635,000 in advance payments on such transactions have been deferred and are recorded in Unexpended portion of grants and contracts received on the Consolidated Statements of Financial Position as of September 30, 2025 and 2024, respectively.
- *Grants received from departments or agencies of the government* - Generally are considered non-exchange transactions and are reported as increases in net assets without donor restrictions as the associated barriers are overcome, which generally is as allowable expenditures under such agreements are incurred. RAND has elected the simultaneous release policy, which allows a not-for-profit organization to recognize a restricted contribution directly in net assets without donor restrictions if the restriction is met in the same period that the revenue is recognized. Substantially all United States government grants awarded to RAND provide for the reimbursement of various indirect costs based on rates negotiated with the DCMA. Conditional government non-exchange transactions that were not recorded in the consolidated financial statements totaled \$63,109,000 and \$64,505,000 as of September 30, 2025 and 2024, respectively. A majority of these conditional non-exchange transactions are related to the performance of specific research.
- *Grants received from private foundations and other non-governmental sources* - Generally are considered non-exchange transactions –

- Conditional non-exchange transactions, which are characterized by both the presence of one or more donor-imposed barriers to RAND's entitlement to promised resources and the donor's right of return of funds or the right to be released of obligations to transfer assets in the future, are recorded when RAND overcomes such barriers. Barriers may include performance-related stipulations, limitations on RAND's discretion over the use of awarded funds, and/or other stipulations related to the purpose of the contribution. Conditional non-exchange transactions from private foundations and other non-governmental agencies that were not recorded in the Consolidated Statements of Activities were \$20,444,000 and \$11,678,000 as of September 30, 2025 and 2024, respectively. \$9,818,000 and \$2,659,000 in advance payments on such non-exchange transactions have been deferred and are recorded in Unexpended portion of grants and contracts received on the Consolidated Statements of Financial Position as of September 30, 2025 and 2024, respectively. A majority of these conditional non-exchange transactions are related to the performance of specific research.
- Unconditional non-exchange transactions are recognized as revenue in the period in which the agreement is received and as an increase in Contracts and grants revenue within the appropriate net asset category.

Contracts and grants revenue on the fiscal year 2025 and 2024 Consolidated Statements of Activities includes agreements that are accounted for as exchange transactions in accordance with ASC 606 and non-exchange transactions in accordance with the contribution accounting guidance in ASC 605, *Not-for-Profit Entities, Revenue Recognition*.

Exchange and non-exchange transactions included in Contracts and grants revenue on the Consolidated Statements of Activities for the years ended September 30, 2025 and 2024 are as follows (in thousands):

|                                    | September 30, 2025 | September 30, 2024 |
|------------------------------------|--------------------|--------------------|
| Exchange transactions              | \$ 335,043         | \$ 353,116         |
| Non-exchange transactions          | 91,198             | 76,732             |
| Total contracts and grants revenue | <u>\$ 426,241</u>  | <u>\$ 429,848</u>  |

Within the \$91,198,000 and \$76,732,000 of non-exchange revenues recognized in fiscal years 2025 and 2024, \$71,662,000 and \$50,338,000 was released from restriction as the associated time and/or purpose restriction was met in fiscal year 2025 and 2024, respectively.

The unbilled receivables for exchange and non-exchange transactions included in the Receivables, net - Billed and unbilled costs on the Consolidated Statements of Financial Position as of September 30, 2025, and 2024 are as follows (in thousands):

|                           | September 30, 2025 | September 30, 2024 |
|---------------------------|--------------------|--------------------|
| Exchange transactions     | \$ 40,462          | \$ 38,326          |
| Non-exchange transactions | 11,374             | 12,251             |
| Unbilled                  | <u>\$ 51,836</u>   | <u>\$ 50,577</u>   |

The unbilled receivables for exchange and non-exchange transactions included in the Receivables, net - Billed and unbilled costs on the Consolidated Statements of Financial Position as of September 30, 2023, was \$39,055,000 and \$11,408,000, respectively.

Exchange transactions included in Unexpended portion of grants and contracts received on the Consolidated Statements of Financial Position are \$17,285,000 for the year ended September 30, 2025, and will be recognized as Contracts and grant revenue during the next fiscal year when the conditions on which they depend have been substantially met. Conditions typically include the achievement of specified milestones or performance barriers. Amounts received prior to satisfying such conditions are recorded as Unexpended portion of grants and contracts received. Substantially all of the Unexpended portion of grants and contracts received balance of \$8,294,000 as of September 30, 2024, and \$6,474,000 as of September 30, 2023,

was recognized as Contracts and grants revenue during the years ended September 30, 2025, and September 30, 2024, respectively.

**Revenues from Contributions:**

- Contributions, including unconditional promises to give, are recognized as revenue in the period received and are reported as increases in the appropriate category of net assets. During the years ended September 30, 2025, and 2024, \$44,859,000 and \$29,564,000 of net assets with donor restrictions were released upon satisfaction of the associated time and / or purpose restriction on the Consolidated Statements of Activities.

**Expenses.** Expenses are reported as decreases in net assets without donor restrictions and are presented by functional classification, which reflects the organization's overall mission. The major functional categories include Research, Management and General, and Fundraising. Each functional classification encompasses all expenses related to the underlying operations.

**Foreign Currency Translation.** Foreign Currency Translation pertains exclusively to RAND's foreign subsidiaries and related foreign-currency transactions. RAND's foreign subsidiaries primarily transact in the local currencies. RAND translates the foreign assets and liabilities at exchange rates in effect at the Consolidated Statements of Financial Position dates and translates the revenues and expenses using average rates during the year.

Gains and losses resulting from exchange rate changes on transactions denominated in a currency other than the local currency are included in Change in net assets before other items on the Consolidated Statements of Activities.

Within Other items on the Consolidated Statements of Activities, RAND recognized foreign exchange gains on the revaluation of intercompany balances. For the year ended September 30, 2025, foreign currency translation adjustments reflect the remeasurement of RAND's foreign subsidiaries, including its ownership interest, intercompany loan balances, accrued interest, and intercompany accounts payable and receivable, all of which are denominated in foreign currencies. For the year ended September 30, 2024, foreign currency translation adjustments were solely related to an intercompany loan. Consistent with ASC 830, Foreign Currency Matters, RAND recognized foreign exchange gains of \$31,000 and \$29,000 for the years ended September 30, 2025, and 2024, respectively.

**New Accounting Pronouncements.** In May 2025, the Financial Accounting Standards Board (FASB) issued ASU 2025 05, Financial Instruments – Credit Losses (Topic 326): Measurement of Credit Losses for Accounts Receivable and Contract Assets. This amendment updates guidance under the Current Expected Credit Loss (CECL) model introduced in prior years, which replaces the former "incurred loss" approach and requires recognition of expected lifetime credit losses for financial assets measured at amortized cost.

RAND adopted the initial CECL guidance in fiscal year 2024. As part of that implementation, management performed a comprehensive assessment of the standard's impact on the organization's financial instruments. RAND's principal financial assets include cash and cash equivalents, investments in marketable securities, and receivables from sponsors and donors primarily related to contracts and grants with U.S. federal, state, and local government agencies, research institutions, and nonprofit organizations. Given the historically low credit risk associated with these counterparties, expected losses under the CECL model were determined to be immaterial.

In fiscal year 2025, RAND adopted the amendment to Topic 326, electing the practical expedient applicable to trade receivables and student tuition. This election permits entities to measure expected credit losses using historical loss information when current economic conditions and reasonable forecasts are not expected to vary meaningfully over the remaining lives of the related assets. RAND applies this practical expedient consistently across all affected receivable balances and also considers subsequent collections occurring after the balance sheet date but before issuance of the financial statements.

RAND maintains a reserve for credit losses using a Probability of Default approach. For the fiscal year ended September 30, 2025, the reserve balance was approximately \$129,000, consistent with historical averages

since FY20. As of that same date, RAND's uncollected receivables totaled approximately \$17.0 million. Management reviewed these balances and concluded that the related risk of non-collection remains immaterial.

Management determined that the adoption of the CECL standard and its related amendment did not have a material effect on RAND's consolidated financial statements or financial position.

**Subsequent Events.** During the period October 2025 through April 10, 2026, RAND had capital calls related to its Multi Strategy Hedge Fund, Private Real Asset, Private Credit, and Private Equity Funds totaling \$0, \$630,000, \$0, and \$1,626,000, respectively. RAND received distributions related to its Multi Strategy Hedge Fund, Private Real Asset, Private Credit, and Private Equity totaling \$19,000, \$1,187,000, \$2,869,000, and \$4,352,000, respectively.

RAND has evaluated subsequent events through April 10, 2026, the date on which the consolidated financial statements were available to be issued.

### 3. Liquidity and Availability:

RAND's financial assets available to meet its general expenditures within one year of the date of the Consolidated Statements of Financial Position as of September 30, 2025, and 2024 are as follows (in thousands):

|                                                              | September 30, 2025 | September 30, 2024 |
|--------------------------------------------------------------|--------------------|--------------------|
| Total assets at year end                                     | \$ 780,764         | \$ 740,269         |
| Less: Financial assets not available for current use         | (59,365)           | (40,277)           |
| Less: Property and equipment and other non-financial assets  | (200,133)          | (203,071)          |
| Less: Long-term investments                                  | (355,053)          | (330,315)          |
| Total financial assets available at year end for current use | 166,213            | 166,606            |
| Add: Board-designated investments                            | 209,806            | 199,874            |
| Total with Board-designated investments                      | \$ 376,019         | \$ 366,480         |

The organization allocates amounts from its Board-designated funds for general expenditures as part of its annual budget approval and appropriation process. Amounts from its Board-designated funds could be made available if necessary to the extent that the underlying investments are not restricted to redemption.

RAND regularly monitors liquidity required to meet its operating needs and other contractual commitments, while also striving to maximize the investment of its available funds. For purposes of analyzing resources available to meet general expenditures over a 12-month period, RAND considers all expenditures related to operating expenses and scheduled principal payments on debt.

As part of RAND's liquidity management, RAND maintains an uncollateralized line of credit that expires in June 2027 in the principal amount of \$75,000,000 (see Footnote 9).

### 4. Billed and Unbilled Costs:

The following table summarizes the components of billed and unbilled contract and grant costs as of September 30, 2025, and 2024 (in thousands):

|                                   | September 30, 2025 | September 30, 2024 |
|-----------------------------------|--------------------|--------------------|
| U.S. government agencies          |                    |                    |
| Billed                            | \$ 9,198           | \$ 17,884          |
| Unbilled                          | 26,494             | 22,786             |
|                                   | 35,692             | 40,670             |
| State, local and private sponsors |                    |                    |
| Billed                            | 9,850              | 11,578             |
| Unbilled                          | 25,342             | 27,791             |
|                                   | 35,192             | 39,369             |
| Allowance for credit losses       | (129)              | (129)              |
|                                   | \$ 70,755          | \$ 79,910          |

Within Other assets in the Consolidated Statements of Financial Position are \$2,874,000 and \$9,903,000 of non-exchange, long-term unbilled receivables for the years ended September 30, 2025, and 2024, respectively.

Unbilled amounts principally represent recoverable costs billed in the first quarter of fiscal years 2026 and 2025, respectively.

No significant contract terminations are anticipated, and past contract terminations have not resulted in significant unreimbursed costs.

## 5. Contributions Receivable:

Unconditional promises to give were \$49,487,000 and \$26,309,000 as of September 30, 2025 and 2024, respectively. The carrying amount of the receivables is deemed a reasonable estimate of their fair value.

Realization of the contributions receivable as of September 30, 2025, and 2024 is expected in the following periods (in thousands):

|                          | September 30, 2025 | September 30, 2024 |
|--------------------------|--------------------|--------------------|
| In one year or less      | \$ 25,762          | \$ 12,419          |
| Between 1 yr. and 5 yrs. | 25,527             | 15,656             |
|                          | <u>51,289</u>      | <u>28,075</u>      |
| Less: Discount           | (1,621)            | (1,558)            |
| Allowance for Bad Debt   | (181)              | (208)              |
|                          | <u>\$ 49,487</u>   | <u>\$ 26,309</u>   |

Contributions receivable in the following net asset with donor restrictions categories as of September 30, 2025, and 2024 are primarily intended to be used for the purposes more fully described in Footnote 12 (in thousands):

|                                | September 30, 2025 | September 30, 2024 |
|--------------------------------|--------------------|--------------------|
| Restricted for time or purpose | \$ 47,914          | \$ 24,796          |
| Restricted in perpetuity       | 1,573              | 1,513              |
|                                | <u>\$ 49,487</u>   | <u>\$ 26,309</u>   |

As of September 30, 2025, one donor makes up approximately 68% of gross contributions receivable. As of September 30, 2024, two donors make up approximately 57% of gross contributions receivable. RAND received payments on prior year contributions receivable in the amount of \$18,139,000 and \$16,671,000 for years ended September 30, 2025 and 2024, respectively.

Per estate bequests, retirement account designations, or insurance policy designations, RAND had intentions totaling \$25,884,000 and \$31,743,000 for the Pardee RAND Graduate School and research as of September 30, 2025, and 2024, respectively. Revenue associated with these intentions will be recorded as they qualify for recognition.

## 6. Long-Term Investments:

Long-term investments are recorded at fair value and all related transactions are recorded on the trade date. The investments consist of cash and cash equivalents, equity, fixed income, private credit, private equity, real assets, and hedge funds. Approximately 20% and 24% of Long-term investments consist of foreign investment holdings as of September 30, 2025 and 2024, respectively. RAND's net investment return for years ended September 30, 2025 and 2024 is a gain of \$30,098,000 and \$49,186,000, respectively.

As of September 30, 2025, RAND had commitments outstanding to purchase private equity, real asset, and credit funds of \$18,275,000; \$2,737,000 of these commitments are estimated to be due within one year.

On the Consolidated Statements of Activities, Investment income and realized/unrealized gains are shown net of related investment expenses and any carried interest amount. Long-term investments consist of the following for the years ended September 30, 2025, and 2024 (in thousands):

|                                           | September 30, 2025 | September 30, 2024 |
|-------------------------------------------|--------------------|--------------------|
| Cash and Cash Equivalents                 | \$ 16,902          | \$ 9,062           |
| Equity Funds, at fair value               | 162,872            | 142,585            |
| Fixed Income Funds, at fair value         | 96,191             | 92,093             |
| Alternative Investments                   |                    |                    |
| Private Credit Funds                      | 14,962             | 19,538             |
| Private Equity and Real Asset Funds       | 63,956             | 66,787             |
| Multi-strategy and Long/Short Hedge Funds | 170                | 250                |
|                                           | <u>\$ 355,053</u>  | <u>\$ 330,315</u>  |

## 7. Fair Value Measurements:

The authoritative accounting guidance for fair value measurement provides the definition of fair value, establishes a fair value hierarchy based on the inputs used to measure fair value, and details the required disclosures about the use of fair value measurements.

Under the guidance, fair value is defined as the price that would be received to sell an asset (or paid to transfer a liability), or the “exit price.” The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into levels:

Level 1 – Quoted prices for identical instruments in active markets.

Level 2 – Quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, or other inputs that are observable or whose significant value drivers are observable.

Level 3 – Significant inputs are supported by little or no market activity and are thus unobservable.

Investments for which fair value is measured using the Net Asset Value (NAV) per share (or its equivalent) as a practical expedient are not categorized using the aforementioned levels. These investments are classified in a separate NAV category.

As required by the guidance, financial assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. RAND’s assessment of the significance of particular inputs to the fair value measurement requires judgment and may affect the selection of the hierarchy level and the valuation itself. RAND’s own creditworthiness has been considered in the fair value measurements contained herein, as it relates to RAND’s interest rate swaps.

*Long-Term Investments* – Quoted market prices are used to determine fair value for fixed income funds and equity funds when available. All such investments are considered Level 1. Certain fixed income funds are not actively traded, but have observable market prices, and are considered Level 2. Alternative investments include RAND’s share of private credit, private equity and real asset funds, multi-strategy funds, and hedge funds, which are not actively traded. RAND’s interests in alternative investment funds are generally reported at NAV as reported by fund managers, which are used as a practical expedient to estimate the fair value of RAND’s interests therein. Fair value measurement for alternative investments considers all available information for each investment fund, including annual audited financial statements, known activity subsequent to the fund’s audited financial statement date, and valuation information from the fund manager.

*Derivative Financial Instruments* – RAND uses two interest rate swaps to fix the interest rate on a portion of its Series 2021 variable rate bonds. Dealer quotes, based on cash flow models discounted at relevant market interest rates, are used to determine the fair value of the swaps, both of which are considered Level 2.

RAND's assets and liabilities measured and reported in the consolidated financial statements at fair value on a recurring basis as of September 30, 2025 were as follows (in thousands):

|                                           | Level 1           | Level 2          | Level 3     | NAV              | September 30, 2025 |
|-------------------------------------------|-------------------|------------------|-------------|------------------|--------------------|
| <u>Assets</u>                             |                   |                  |             |                  |                    |
| Investments                               |                   |                  |             |                  |                    |
| Equity Funds                              | \$ 162,872        | \$ -             | \$ -        | \$ -             | \$ 162,872         |
| Fixed Income Funds                        | 81,495            | 14,696           | -           | -                | 96,191             |
| Alternative Investments                   |                   |                  |             |                  |                    |
| Private Credit Funds                      | -                 | -                | -           | 14,962           | 14,962             |
| Private Equity and Real Asset Funds       | -                 | -                | -           | 63,956           | 63,956             |

RAND uses the NAV or its equivalent to determine the fair value of all the underlying investments that (i) do not have a readily determinable fair value and (ii) either have the attributes of an investment company or prepare their financial statements consistent with the measurement principles of an investment company.

The following table lists these investments by major category as of September 30, 2025 (in thousands):

| Category                              | Strategy                                                                                                              | NAV              | Unfunded Commitments | Nature and Risks of the Investment                                                                                                                                                                                                                                                                                                                                  |

## 8. Postretirement Benefits Other Than Pensions:

The RAND Retiree Group Medical Benefits Plan (Plan) and the RAND Corporation Retiree HRA Plan (HRA) provide health care benefits to certain employees who retire having met the required age and years of service with RAND. This coverage also applies to their dependents. Under the Plan, retirees and their dependents under age 65 may elect RAND-sponsored group coverage under the Preferred Provider Organization and various HMOs. Retirees and dependents share substantially in the cost of group coverage. Medicare becomes the primary coverage for retirees when they reach age 65. Post-65 retirees and their post-65 dependent spouse/partner are covered under the HRA and provided health care benefits through a private exchange. A health reimbursement arrangement account is annually funded from which they can be reimbursed for eligible health care expenses, including Medicare Part B and Part D premiums, health care premiums, and

co-insurance associated with individual insurance contracts purchased through the private exchange. A legacy group of post-65 retirees and their dependent spouse/partner are eligible for a catastrophic prescription drug plan.

RAND retains the right, subject to existing agreements, to change or eliminate these benefits.

The following table sets forth the Plan's funded status as shown in the Consolidated Statements of Financial Position for the years ended September 30, 2025, and 2024, are as follows (in thousands):

|                                                            | September 30, 2025 | September 30, 2024 |

| Plan participants' contributions                           | 353                | 265                |
| Benefits paid                                              | (1,135)            | (1,317)            |
| Fair value of the Plan's total assets at end of year       | <u>\$ 29,185</u>   | <u>\$ 27,437</u>   |
| <b>Reconciliation of funded status</b>                     |                    |                    |
| Projected benefit obligation at end of year                | \$ (29,862)        | \$ (29,635)        |
| Fair value of the Plan's assets at end of year             | 29,185             | 27,437             |
| Unfunded status                                            | <u>\$ (677)</u>    | <u>\$ (2,198)</u>  |

The unfunded statuses are shown on the Consolidated Statements of Financial Position in Accrued postretirement benefit liability as of September 30, 2025 and 2024. As shown in the table above, the net benefit obligation is offset by the total plan assets during the year. Plan assets represent the fair value of investments stemming from contributions less any benefits paid to participants. The contributions received for the fiscal year ended September 30, 2025 were \$499,000 and the contributions expected to be received during the fiscal year ended September 30, 2026 are \$69,000.

Amounts expected to be recognized in Other components of net periodic benefit cost during fiscal year 2026, consist of (in thousands):

|          |               |
|----------|---------------|
| Net gain | <u>\$ 447</u> |
| Total    | <u>\$ 447</u> |

The following table provides the relevant weighted-average assumptions used for the years ended September 30, 2025, and 2024:

|                                                                          | September 30, 2025 | September 30, 2024 |
|--------------------------------------------------------------------------|--------------------|--------------------|
| Discount rate used to determine benefit obligation                       | 5.50%              | 5.15%              |
| Discount rate used to determine net periodic postretirement benefit cost | 5.15%              | 6.10%              |
| Long-term rate of return on the Plan's investment assets                 | 7.50%              | 7.50%              |

The long-term rate of return on plan assets is based on management's expectation of earnings on the assets that secure RAND's funded plans, taking into account the mix of invested assets, the arithmetic average of past returns, economic and stock market conditions and future expectations, and the long-term nature of the

projected benefit obligation to which these investments relate. RAND believes that the long-term rate of return on plan assets used in determining plan expense is reasonable based on historical returns.

Assumed pre-65 healthcare cost trend rates are as follows for the years ended September 30, 2025, and 2024:

|                                                         | September 30, 2025 | September 30, 2024 |
|---------------------------------------------------------|--------------------|--------------------|
| Health care cost trend rate assumed for the next year   | 8.00%              | 6.50%              |
| Rate to which the cost trend rate is assumed to decline | 5.00%              | 5.00%              |
| Year that the rate reaches the ultimate trend rate      | 2032               | 2029               |

Future increases for the post-65 Individual Marketplace HRA contributions are assumed to be 2.50% based on the normative level of CPI for October 1, 2025 U.S. Capital Market Assumptions.

The net periodic postretirement benefit cost for the years ended September 30, 2025 and 2024 included the following components (in thousands):

|                                                                                          | September 30, 2025 | September 30, 2024 |
|------------------------------------------------------------------------------------------|--------------------|--------------------|
| Service cost-benefits attributed to service during the period                            | \$ (965)           | \$ (751)           |
| Increase in the accumulated postretirement benefit obligation due to the passage of time | (1,494)            | (1,467)            |
| Expected return on the Plan's investment assets                                          | 2,013              | 1,795              |
| Net prior service credit amortization                                                    | 346                | 517                |
| Gain amortization                                                                        | 238                | 593                |
| Net periodic postretirement benefit income                                               | <u>\$ 138</u>      | <u>\$ 687</u>      |

As required under ASC 715-20-50-1, the amounts in Other items recognized in net assets that have not yet been recognized as components of net period benefit cost for the years ended September 30, 2025 and 2024 included the following components (in thousands):

|                                                                        | September 30, 2025 | September 30, 2024 |
|------------------------------------------------------------------------|--------------------|--------------------|
| Net prior service credit                                               | \$ -               | \$ 346             |
| Net gain                                                               | 5,590              | 4,007              |
| Cumulative amounts recognized in net assets without donor restrictions | <u>\$ 5,590</u>    | <u>\$ 4,353</u>    |

Details to compute the adjustment of \$1,237,000 and (\$2,804,000) for the accrued postretirement benefits liability (other than net periodic retirement benefit costs) in Other items on the Consolidated Statements of Activities for the years ended September 30, 2025 and 2024 included the following components (in thousands):

|                                                                                                   | September 30, 2025 | September 30, 2024 |
|---------------------------------------------------------------------------------------------------|--------------------|--------------------|
| Cumulative amounts recognized in net assets without donor restrictions at prior fiscal year end   | \$ 4,353           | \$ 7,157           |
| Net prior service credit amortization during the year:                                            |                    |                    |
| Net gain amortized during the year                                                                | (238)              | (593)              |
| Net prior service credit                                                                          | (346)              | (517)              |
| Net loss that occurred during the year                                                            | <u>1,821</u>       | <u>(1,694)</u>     |
| Cumulative amounts recognized in net assets without donor restrictions at current fiscal year end | <u>\$ 5,590</u>    | <u>\$ 4,353</u>    |

For September 30, 2025, the difference between the \$5,590,000 and \$4,353,000 is an adjustment of \$1,237,000 which is primarily due to a gain related to a increase in the discount rate from 5.15% to 5.50% and a net gain that occurred during the year. For September 30, 2024, the difference between the \$4,353,000 and \$7,157,000 is an adjustment of (\$2,804,000) which is primarily due to a decrease in the discount rate from 6.10% to 5.15% and a net loss that occurred during the year.

The following estimated benefit payments, which reflect expected future service and Medicare Part D subsidies, as appropriate, are expected to be paid (in thousands):

|                 | Gross Benefit<br>Payments |
|-----------------|---------------------------|
| 2026            | 1,372                     |
| 2027            | 1,433                     |
| 2028            | 1,481                     |
| 2029            | 1,547                     |
| 2030            | 1,615                     |
| Next Five years | 9,433                     |

RAND contributes to the RAND Retiree Medical Benefit Trust (the Trust). The Trust was established to hold the investment assets for the Plan. The Plan and the Trust together are intended to constitute a Voluntary Employee Benefit Association.

The Plan's Long-term investments consist of money market funds, equity funds, fixed income funds, private credit funds, private equity and real asset funds. Approximately 22% and 24% of the Plan's Long-term investments consist of foreign holdings as of September 30, 2025 and 2024, respectively. Commitments of \$137,000 are due within one year as of September 30, 2025.

Fair value measurement is required for the investment assets of the Plan. Note all identification, evaluation, and disclosures required for RAND's Long-term investments shown in Footnote 7 also apply to the Plan's investment assets.

The Plan's investment assets measured and reported at fair value on a recurring basis as of September 30, 2025 were as follows (in thousands):

|                                     | Level 1          | Level 2         | Level 3     | NAV             | September 30, 2025 |
|-------------------------------------|------------------|-----------------|-------------|-----------------|--------------------|
| <u>Assets</u>                       |                  |                 |             |                 |                    |

|                                     | 20,997           | 1,092           | -           | 5,357           | 27,446             |
| Cash Equivalents                    | -                | -               | -           | -               | 504                |
| Total Assets                        | <u>\$ 20,997</u> | <u>\$ 1,092</u> | <u>\$ -</u> | <u>\$ 5,357</u> | <u>\$ 27,950</u>   |

Certain investment assets of the Plan use the NAV or its equivalent for the fair value of all the underlying investments because they (i) do not have a readily determinable fair value and (ii) either have the attributes of an investment company or prepare their financial statements consistent with the measurement principles of an investment company.

The following table lists these investments by major category as of September 30, 2025 (in thousands):

| Category                              | Strategy                                                                                                 | NAV             | Unfunded Commitments | Nature and Risks of the Investment                                                                                                                                                                                                                                                                                                                                     |

## 9. Borrowing Arrangements:

The following table sets forth the long-term debt issued to finance the construction of RAND's Santa Monica headquarters facility as shown in the Consolidated Statements of Financial Position as of September 30, 2025, and 2024 (in thousands):

|                                                                                                                                                                         | September 30, 2025 | September 30, 2024 |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------|--------------------|
| Variable Rate Revenue Bonds, Series 2021; average interest rate of 3.99% and 4.71% for the fiscal years ending September 30, 2025 and September 30, 2024, respectively. | \$ 85,265          | \$ 88,705          |
| Bond issuance costs                                                                                                                                                     | (332)              | (352)              |
|                                                                                                                                                                         | 84,933             | 88,353             |
| Less: current portion                                                                                                                                                   | (3,590)            | (3,440)            |
|                                                                                                                                                                         | <u>\$ 81,343</u>   | <u>\$ 84,913</u>   |

In 2021, RAND issued \$98,225,000 of tax-exempt variable rate revenue bonds (Series 2021), via direct placement with a lender, to refinance the Series 2008A and Series 2008B tax-exempt variable rate revenue bonds. The interest rate was 79% of one-month LIBOR plus a fixed spread, subject to a minimum rate (floor). Effective October 1, 2022, underlying interest rate has been updated to one-month Secured Overnight Financing Rate (SOFR) while all other terms remained unchanged. Costs incurred in connection with the issuance of the Series 2021 bonds of approximately \$506,000 were paid by RAND. Annual principal payments ranging from \$3,050,000 to \$6,760,000 are due from April 1, 2022, to April 1, 2042.

The bonds contain various covenants including compliance with the following financial measures: either a minimum debt service coverage ratio or a minimum liquidity level. RAND is in compliance with all covenants as of September 30, 2025.

**Interest Rate Swaps.** Concurrent with the issuance of the Series 2007 variable rate bonds, which were refinanced with the issuance of the Series 2008A bonds, RAND entered into an interest rate swap agreement with a counterparty whereby RAND currently agrees to pay the counterparty a fixed rate of interest of 3.916% and the counterparty agrees to pay RAND 67% of one-month SOFR. The notional value of this swap is \$23,025,000 and \$23,950,000 as of September 30, 2025, and 2024, respectively. RAND entered into an additional interest rate swap agreement with another counterparty for \$42,350,000 of its Series 2002B variable rate bonds, which were refinanced with the issuance of the Series 2008B bonds, whereby RAND currently agrees to pay the counterparty a fixed rate of interest of 3.955% and the counterparty agrees to pay RAND 67% of Daily Simple SOFR plus 0.11%. The notional value of this swap is \$26,415,000 and \$27,565,000 as of September 30, 2025, and 2024, respectively.

Both swaps remain in effect with the same terms and terminate on April 1, 2042, the maturity date of the Series 2021 bonds. Within the Change in fair value of derivative instruments included in Other items on the Consolidated Statements of Activities, is a gain of \$1,566,000 and a loss of \$2,395,000 for fiscal years 2025 and 2024, respectively. The liability related to the interest rate swaps of \$5,419,000 and \$6,985,000 for fiscal years 2025 and 2024, respectively, are shown on the Consolidated Statements of Financial Position in Other long-term liabilities.

Annual bond principal payments are required in the following fiscal years (in thousands):

|            |    |               |
|------------|----|---------------|
| 2026       | \$ | 3,590         |
| 2027       |    | 3,720         |
| 2028       |    | 3,875         |
| 2029       |    | 4,050         |
| 2030       |    | 4,190         |
| Thereafter |    | 65,840        |
|            | \$ | <u>85,265</u> |

Accrued interest payable relating to the bonds was \$0 and \$341,000 as of September 30, 2025 and 2024, respectively. RAND's total interest expense was \$3,981,000 and \$4,478,000 for the fiscal years ended September 30, 2025 and 2024, respectively.

**Line of Credit.** On June 27, 2024, RAND opened a new line of credit. The principal amount is \$75,000,000 that matures on June 27, 2027. Under the terms of the credit agreement, interest is payable at Daily SOFR plus 0.85%. The line of credit contains covenants that require RAND to achieve the same financial measures as the Series 2021 revenue bonds.

## 10. Leases:

RAND is committed to minimum annual lease payments under several long-term non-cancellable operating leases for equipment, buildings, and office space expiring at various dates through 2036. RAND has entered into the following lease arrangements:

**Short-Term Leases.** RAND had three short-term leases (12 months or less) during the fiscal year, located in Pittsburgh, Australia, and the Netherlands. All three leases had an initial term or 12 months and did not include a purchase option. RAND has elected to apply the short-term lease practical expedient, under which leases with a term of 12 months or less are not recognized on the statement of financial position.

**Operating Leases – Lessee.** RAND has various equipment and real estate leases for office space that expire in various years through 2036. These leases generally contain renewal options for periods ranging from 1 year to 10 years and certain RAND office leases contain rent escalation clauses and fair-market renewal options. Office leases generally require RAND to pay for utilities, insurance, taxes, and maintenance. Equipment leases generally require RAND to pay for taxes, maintenance, and supplies. RAND is reasonably certain the renewal options will be exercised on the Arlington office lease and has included them in the terms.

RAND is not reasonably certain the renewal options will be exercised on all other properties and has not included them in the terms.

**Operating Leases – Lessor** . RAND has properties in which it is the lessor. RAND has two subleases in the Pittsburgh and Santa Monica office spaces. The Pittsburgh sublease expires in 2026 and contains a renewal option of 5 years. The Santa Monica sublease was terminated as of December 2024 and was not renewed. The sublease agreements do not include any rent escalation clauses. The tenant is required to pay for utilities and taxes to RAND, included in their rent payments.

The components of lease expense for the years ended September 30, 2025 and 2024, are as follows (in thousands):

|                                                                        | September 30, 2025 | September 30, 2024 |
|------------------------------------------------------------------------|--------------------|--------------------|
| Operating lease cost                                                   | \$ 13,139          | \$ 12,213          |
| Sublease income                                                        | (307)              | (366)              |

| Less: amounts representing interest | (21,518)           |
| PV of net minimum lease payments    | <u>\$ 98,795</u>   |

## 11. Contingencies:

Contract costs billed prior to September 30, 2024 have been audited by Defense Contract Audit Agency (DCAA) and accepted by the DCMA. To date, there have been no significant cost disallowances with these annual contract cost submissions. In management's opinion, contract costs billed subsequent to September 30, 2024 are allowable, and any potential cost disallowance would not materially affect RAND's consolidated financial position, changes in net assets, or cash flows.

RAND receives funding or reimbursement from agencies of the United States government for various activities that are subject to audit for compliance to federal government cost accounting standards. RAND has resolved all audit findings with DCMA and management believes there are no current concerns.

RAND is involved in legal cases that have arisen in the normal course of its operations. RAND believes that the outcome of these cases will not have a material adverse effect on the financial position of RAND.

## 12. Endowment:

RAND's endowment consists of approximately 52 individual investment funds established for a variety of purposes. It has both donor-restricted endowment funds and funds designated by the Board to function as

endowment funds. As required by GAAP, net assets associated with endowment funds are classified and reported based on the existence or absence of donor-imposed restrictions.

Absent explicit donor stipulations to the contrary, RAND classifies the original value of gifts donated to the permanent endowment as net assets with donor restrictions in perpetuity. The remaining portion of the donor-restricted endowment fund that is not classified in net assets with donor restrictions in perpetuity is classified as net assets with donor restrictions for time or purpose until those amounts are appropriated for expenditure by RAND in a manner consistent with the standard of prudence as adopted in the State of California prescribed by Uniform Prudent Management of Institutional Funds Act ("UPMIFA").

The following table summarizes this Long-term investment fund by net asset class as of September 30, 2025 (in thousands):

|                        | Without donor restriction | For Time<br>or Purpose | In Perpetuity    | Total             |
|------------------------|---------------------------|------------------------|------------------|-------------------|
| Donor restricted funds | \$ -                      | \$ 70,944              | \$ 74,303        | \$ 145,247        |
| Board-designated funds | 209,806                   | -                      | -                | 209,806           |
| End of year            | <u>\$ 209,806</u>         | <u>\$ 70,944</u>       | <u>\$ 74,303</u> | <u>\$ 355,053</u> |

The following table summarizes this Long-term investment fund by net asset class as of September 30, 2024 (in thousands):

|                        | Without donor restriction | For Time<br>or Purpose | In Perpetuity    | Total             |
|------------------------|---------------------------|------------------------|------------------|-------------------|
| Donor restricted funds | \$ -                      | \$ 56,604              | \$ 73,837        | \$ 130,441        |
| Board-designated funds | 199,874                   | -                      | -                | 199,874           |

**Investment and Spending Policies.** RAND's investment and spending policies are in compliance with UPMIFA. In accordance with UPMIFA, RAND considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds: the duration and preservation of the fund, the mission of RAND, general economic conditions, the possible effect of inflation and deflation, the expected total return from income and the appreciation of investments, the investment policies of the organization, and RAND's other resources. Per RAND's investment policy, endowment assets are invested in a manner that is intended to increase the purchasing power on a long-term basis after inflation and payment for RAND operations. RAND relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). RAND targets a diversified asset allocation to achieve its long-term return objectives within prudent risk constraints.

Per RAND's spending policy, a percentage of its endowment fund's average fair value over the prior 12 quarters through June 30 is appropriated for distribution each year. In establishing this policy, RAND considered the long-term expected return on its endowment. Accordingly, over the long term, RAND expects the current spending policy to allow its endowment to grow at a rate equal to or in excess of inflation. From time to time, the fair value of endowment funds may fall below the original gift amount. Deficiencies of this nature are referred to as underwater endowments. If an endowment is underwater, RAND complies with the donor's agreement.

RAND did not have underwater endowments for the years ended September 30, 2025, and 2024.

### 13. Net Assets:

**Net Assets Without Donor Restrictions Designated By The Board.** Net assets without donor restrictions contains Board-designated net assets (net of cumulative net asset transfers) that are available for the following purposes as of September 30, 2025, and 2024 (in thousands):

|                                         | September 30, 2025 | September 30, 2024 |
|-----------------------------------------|--------------------|--------------------|
| Designated for investment - long term   | \$ 188,965         | \$ 170,879         |
| Designated for investment - general     | 30,056             | 41,243             |
| Designated for investment - special use |                    |                    |
| RAND Education                          | 3,592              | 3,412              |
| RAND School of Public Policy            | 2,637              | 2,512              |
| Countering Truth Decay, as restated     | 2,333              | 1,551              |
| Special Purpose Finds, as restated      | 455                | 340                |
|                                         | <u>\$ 228,038</u>  | <u>\$ 219,937</u>  |

**Net Assets With Donor Restrictions.** Net Assets With Donor Restrictions (including promises to give) are shown below by the purpose designated by the donor:

For time or purpose as of September 30, 2025, and 2024 (in thousands):

|                                                     | September 30, 2025 | September 30, 2024 |
|-----------------------------------------------------|--------------------|--------------------|
| RAND General Support, as restated                   | \$ 42,193          | \$ 18,360          |
| RAND School of Public Policy                        | 35,732             | 36,509             |
| Global and Emerging Risks                           | 18,616             | 8,648              |
| National Security Research and Training             | 16,687             | 8,897              |
| Justice, Infrastructure, and Environment            | 8,137              | 7,862              |
| Special Purpose Funds, as restated                  | 5,821              | 5,318              |
| Institute for Civil Justice                         | 4,389              | 4,208              |
| Paul O'Neill Alcoa Professorship in Policy Analysis | 3,092              | 2,640              |

#### 14. Restatement

During fiscal year September 30, 2025, management identified errors relating to the classification of net assets with donor restrictions and net assets without donor restrictions as net assets were not properly released in prior years as the time restriction was met and certain contributions received were incorrectly identified as having purpose restrictions. These errors had no impact on total net assets in the prior years. In addition, an error was identified by management related to conditional contract and grant revenue that was improperly recognized prior to the barriers being met during years prior to fiscal year ending September 30, 2024. As a result, the opening balances for purpose restricted net assets with donor restrictions in Note 13 were also restated. Receivables, net of billed and unbilled costs with a balance of \$75,138,000 as of October 1, 2023 was restated by \$3,382,000 to a restated amount of \$78,520,000.

The effect of the restatement on the financial statements as of September 30, 2024, in addition to the receivables, net as of October 1, 2023, are as follows:

|                                                      | (As Previously Stated)<br>September 30, 2024 | Restatement<br>Effect | (As Restated)<br>September 30, 2024 |

## 15. Functional Expense:

Expenses are categorized by functional classification to align with RAND's overall mission. The categories include Personnel (costs related to employees), Expense (operational expenditures), Subcontracts/Professional Services (services from external vendors), Depreciation and Amortization (allocation of asset costs), and Interest (costs associated with borrowing). Personnel expenses are allocated to functional categories based on the time and effort expended, while all other expenses are assigned directly to their respective functional categories.

For the year ended September 30, 2025, functional expenses consist of the following (in thousands):

|                                    |                   |                           |                 | Year Ended<br>September 30, 2025 |
|------------------------------------|-------------------|---------------------------|-----------------|----------------------------------|
|                                    | Research          | Management<br>and General | Fundraising     | Total                            |
| Personnel                          | \$ 323,505        | \$ 51,259                 | \$ 4,141        | \$ 378,905                       |
| Expenses                           | 53,272            | 33,341                    | 1,128           | 87,741                           |
| Subcontracts/Professional Services | 53,040            | 7,782                     | 12              | 60,834                           |
| Depreciation and Amortization      | 1,827             | 11,140                    | -               | 12,967                           |
| Interest                           | -                 | 3,982                     | -               | 3,982                            |
| Total                              | <u>\$ 431,644</u> | <u>\$ 107,504</u>         | <u>\$ 5,281</u> | <u>\$ 544,429</u>                |

For the year ended September 30, 2024, functional expenses consist of the following (in thousands):

|                                    |                   |                           |                 | Year Ended<br>September 30, 2024 |

#### 16. Employee Retirement Plans:

RAND has four defined contribution employee plans: a Qualified Retirement Plan ("QRP"), a Supplemental Retirement Annuity Plan ("SRAP"), a Nonqualified Deferred Compensation Plan ("NDCP"), and a Nonqualified Supplementary Plan ("NSP"). Most full-time, regular employees are eligible to participate in the QRP and SRAP. Certain employees are eligible to participate in the NSP and NDCP. RAND has reserved the right to terminate the plans at any time, but in such an event, the benefits already purchased by the participant and contributions already made by RAND would not be affected. The QRP and NSP are entirely RAND-financed. RAND's contributions to the Plans for eligible employees range from 5% to 14% of salaries, depending on the level of wages and age of the participating employee. RAND's contributions to the QRP vest at the earlier of retirement or four years of service. Vesting begins after two years of service and increases weekly to 100% at the end of four years of service. The NSP and NDCP vest under various conditions specified in the plan. All contributions made by RAND are charged to operations. RAND's contributions were \$21,399,000 and \$19,400,000 for the fiscal years ended September 30, 2025 and 2024, respectively. The SRAP and NDCP only require employee contributions, and RAND does not contribute to these plans.
