

About EMKA

The EMKA GROUP is the world market leader for locks, latches, hinges and seals used in switch and control cabinets. For more than 50 years, the company has been active across all sectors in the fields of industry (switch and control cabinets, HVACR systems, mechanical engineering) and transport (railway and commercial vehicles, caravans, etc.) with conventional and electronic locking solutions.

The total product range comprises 30,000 articles, which are developed, manufactured, finished and assembled at twelve production sites in Germany, France, England, Spain, Bosnia, Serbia, China, Indonesia, India and Hungary. In one of the two plants in Bosnia, the company produces up to 900 moulds per year for injection moulding and die casting - both for internal use and for external customers.

With 2,100 employees EMKA serves over 40,000 customers in 60 countries. In 2024, the company achieved turnover of over 360 million euros.

EMKA: Ingenious Locking Technology.

Solution for your needs

EMKA is an expert in the casting of stainless steel, for zinc and aluminum die casting and in the injection moulding of high-performance plastics as well as in the extrusion of rubber and plastic profiles. The unique production depth is also ensured by in-house punching, bending, turning, milling, surface coating or powder coating, and final assembly of the products of the modular product range. For the realization of individual customer solutions, an experienced team of designers, developers and engineers is available at the EMKA Technology Center. The company sets standards in quality, production depth, delivery performance and innovation.
